What Do I Already Know?

Answer with what you know right now. It is OK to guess!

1. What makes a moving object slow down and stop? Give an example.

2. Predict: Will a toy car roll farther on carpet or on a smooth floor? Why do you think so?

Show What I Learned

Use evidence from today's lesson to explain your thinking.

1. Draw force arrows for a tug-of-war where one team is winning. Label the forces and explain why the rope moves.

2. Use the friction data table: rank the four surfaces from most friction to least, and give two numbers as evidence.

3. Explain the trade-off a ramp or lever makes. Use the words force and distance.

4. Elijah McCoy and Al-Jazari both built machines. How did each one's work use or fight friction or other forces?

★ **Challenge:** Design a fair test: does a heavier toy car roll farther than a lighter one? Name what you would change, what you would measure, and what you would keep the same.

Looking Ahead: Next week you will explore the human body and how its systems work together. Question to bring: your muscles pull on your bones to move you. Which simple machine does your arm act like?

What Did I Learn?

Use evidence from today's lesson. Write in complete sentences.

1. Explain how the Underground Railroad worked. Who did most of the work, and what risks did they take?

2. Why did the Southern states secede? Quote or describe words from one secession declaration as evidence.

3. Was the Emancipation Proclamation the end of slavery? Explain what it did and did not do.

4. Pick two people from today (for example, Tubman and Smalls). How were their fights for freedom alike and different?

★ **Challenge:** Write a short speech, like an abolitionist's, to persuade people in 1860 that slavery must end. Use at least one fact from today's lesson as evidence.

Looking Ahead: Next week: Reconstruction, the years after the war when Americans rebuilt the nation, wrote three new amendments and argued about what freedom would mean. Bring this question: after slavery ended, what would freedpeople need to be truly free?
