Cargo Day at PortMiami

Name: _____ Date: _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

Pre-Lesson Warm-Up: Measuring on the Dock

Andre is spending the day at PortMiami, where everything gets measured. Before the lesson, warm up with these problems. Show your work.

1 Fill in the blanks: 1 foot = ___ inches, 1 yard = ___ feet, 1 pound = ___ ounces, 1 hour = ___ minutes.

2 Andre's rope is 4 feet long. How many inches long is it? Show your work.

3 Which unit would you use to measure the water in the crew's cooler?

inches pounds gallons miles

4 Fill in the blanks: 1 meter = ___ centimeters, 1 kilogram = ___ grams, 1 liter = ___ milliliters.

5 Match each word to its meaning. Write the letter next to each word.

___ **capacity**	**A.** the time that passes from start to finish
___ **mass**	**B.** how much a container can hold
___ **elapsed time**	**C.** the amount of matter in an object, measured in grams or kilograms

6 Review (Week 13): 2/3 × 12 = ?

Cargo Day at PortMiami

Name: _____ Date: _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Post-Lesson Challenge: Cargo Day at PortMiami

Use measurement conversions to finish Andre's day on the dock. Show your work.

1. A shipping container is 40 feet long. How many inches long is it? How many yards and feet is that?

2. Which of these is the HEAVIEST?

   5,000 pounds | 3 tons | 2 tons 900 pounds | 90,000 ounces

3. Aunt Guerline starts work at 6:45 a.m. and finishes at 3:15 p.m. She takes a 30-minute lunch break. How many hours did she actually work?

Cargo Day at PortMiami

Name: _____ Date: _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON · CONTINUED

Post-Lesson Challenge: Cargo Day at PortMiami

4. Mr. Alvarez has 3 gallons of water. How many 1-cup servings is that? If 40 dockworkers each get 1 cup, how many cups are left over?

5. Writing: Jamal says, "To change kilograms to grams, you divide by 1,000, because grams are smaller." In two or three complete sentences, explain whether he is right. Include an example with numbers.

★ **Challenge:** Andre walks all the way around a rectangular cargo yard that is 120 yards long and 50 yards wide. How many yards does he walk? How many feet? How many inches?

Looking Ahead: Next week (Week 15) is Checkpoint 3, a review of Weeks 11–14: factors, multiples, and prime numbers; equivalent fractions and mixed numbers; multiplying fractions; and measurement conversions. Look back at your notes and Pencil Break sheets to get ready.

KCE PATHWAYS · GRADES 4–5 · UNIT 3: BUILDING THINGS · WEEK 14 · READING

Giants of the Bay: Quoting vs. Paraphrasing

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

Pre-Lesson Warm-Up: Borrowing Words the Right Way

Before the lesson, show what you already know about using information from a source. Do your best. It is fine to guess!

1 Which sentence is a QUOTE?

- Ms. Rivera says, "Big ships need deep water."
- Ms. Rivera says that large ships need a deep channel.
- Big ships need deep water.

2 Add quotation marks around the author's exact words: The article says, Cranes can lift very heavy boxes.

3 In your own words, what does it mean to paraphrase?

4 Copying an author's sentence into your report with no quotation marks and no source is called...

- plagiarism
- paraphrasing
- citing

5 Review (Week 13): Which sentence is a simile?

- The ship was as big as a mountain.
- The ship was a mountain.
- The ship groaned in the wind.

KCE PATHWAYS · GRADES 4–5 · UNIT 3: BUILDING THINGS · WEEK 14 · READING

Giants of the Bay: Quoting vs. Paraphrasing

Name: _____ **Date:** _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Post-Lesson Challenge: Research Reporter

Use everything you practiced today: quotation marks, commas, capitals, paraphrasing, relevant facts, and simple citations.

1 Punctuate and capitalize this quotation correctly: marisol ortega writes the port is a meeting place for the whole world

2 Mateo's note says: Some containers work like giant refrigerators. He copied it word for word from the fact sheet and did not name the source. Is this a quote, a paraphrase, or plagiarism? Explain how he could fix it.

3 Research question: "How do cruise ships leave Miami?" Which fact is MOST relevant?

- Cruise ships sail out through Government Cut, past the tip of Miami Beach.
- Most containers are 20 or 40 feet long.
- The giant cranes look like metal giraffes.

KCE PATHWAYS · GRADES 4–5 · UNIT 3: BUILDING THINGS · WEEK 14 · READING

Giants of the Bay: Quoting vs. Paraphrasing

Name: _____ Date: _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON · CONTINUED

Post-Lesson Challenge: Research Reporter

4 Write a simple citation (title + author) for the magazine article "Giants of the Bay," written by Marisol Ortega.

5 Writing: Paraphrase this sentence from "Miami's Busy Port: Fast Facts" by the Biscayne Bay Learning Network. Name the source in your sentence, keep the meaning, and do not copy 4 or more words in a row. Original: "Workers dug the main channel to a depth of 50 feet so very large cargo ships can reach the docks." Then write one more sentence telling why a paraphrase works better than a quote for this fact.

★ **Challenge:** Choose a place you know: your town, a nearby farm, or a village you have visited. Find TWO sources about it (a book, a sign, a website, or an interview with an adult). Write a short paragraph of 4 to 5 sentences that uses ONE quote and ONE paraphrase, then list a simple citation (title + author or organization) for each source.

Looking Ahead: Week 15: Checkpoint 3. You will review everything from Weeks 11 to 14: punctuating dialogue, building paragraphs with transitions, figurative language and poetry, and quoting and paraphrasing sources.

KCE PATHWAYS · GRADES 4-5 · UNIT 3: BUILDING THINGS · WEEK 14 · SCIENCE

The Human Body

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

What Do I Already Know?

Answer with what you know right now. It is OK to guess!

1. Name as many body systems or organs as you can. What does one of them do?

2. Predict: What happens to your heartbeat and breathing when you run? Why do you think so?

3. Draw an outline of a body. Draw where you think the heart, lungs and brain are, and label them.

4. What is one question you have about how your body works?

KCE PATHWAYS · GRADES 4-5 · UNIT 3: BUILDING THINGS · WEEK 14 · SCIENCE

The Human Body

Name: _____ **Date:** _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Show What I Learned

Use evidence from today's lesson to explain your thinking.

1. Explain how the respiratory and circulatory systems work together to get oxygen to your cells.

2. Use the heart rate data table: what happened to heart rates during exercise and after rest? Give numbers as evidence.

3. Draw and label the systems that work together when you kick a ball. Use arrows to show the order.

4. Charles Drew and Daniel Hale Williams both faced unfair barriers. How did each one use science to help people anyway?

★ **Challenge:** With a parent, measure your pulse for 15 seconds while resting, then after one minute of marching in place, then after two minutes of rest. Multiply each count by 4, make a table and describe the pattern you see.

Looking Ahead: Next week is the Unit 3 Science Checkpoint, covering matter and mixtures, energy and electricity, forces and motion, and the human body. Question to bring: how does your body use energy and forces every time you move?

KCE PATHWAYS · GRADES 4-5 · UNIT 3: BUILDING THINGS · WEEK 14 · SOCIAL STUDIES

Reconstruction and Building the Nation (1865–1877)

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

What Do I Already Know?

Write what you know right now. Guesses are fine; this is your starting point.

1. What do you already know about what happened in the United States after the Civil War? Write two things.

2. Have you heard of Juneteenth? What do you think it celebrates?

3. Prediction: After slavery ended, what do you think freedpeople needed most to be truly free? Write or draw your ideas.

4. Guess: Who do you think built the railroad that crossed the country in 1869?

5. Write one question you have about the years after the Civil War.

KCE PATHWAYS · GRADES 4-5 · UNIT 3: BUILDING THINGS · WEEK 14 · SOCIAL STUDIES

Reconstruction and Building the Nation (1865–1877)

Name: _____ **Date:** _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

What Did I Learn?

Use evidence from today's lesson. Write in complete sentences.

1. Name the 13th, 14th and 15th Amendments' main promises. What gap did one of them leave?

2. Using Jourdon Anderson's letter as evidence, explain what freedom meant to him.

3. Why did Reconstruction end in 1877, and what was left unfinished?

4. Who built the Transcontinental Railroad, and who paid the cost?

★ **Challenge:** Imagine you are a reporter in Galveston on June 19, 1866, at the first Juneteenth celebration. Write a short news story: who is there, what are they celebrating, and what do they still hope for?

Looking Ahead: Next week is the Unit 3 Checkpoint, the last stop of the course, where you show what you learned in Weeks 11 to 14. Bring this question: which person from this unit did the most to make the nation live up to its promise of freedom, and what is your evidence?
