The Great Babysitting Rescue

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

Zoe's Afternoon Begins

Zoe just got put in charge of her little brother Milo for the afternoon. Before you meet them, warm up on last week's skills AND today's new ones.

REV Quick Review from Week 1: Use the area model to solve 14 × 12 (break apart 14=10+4, and 12=10+2). Show every step — this skill still matters!

1 Match each word to its meaning.

___ **dividend**	**A.** The number of equal groups
___ **divisor**	**B.** The answer after dividing
___ **quotient**	**C.** What's left over
___ **remainder**	**D.** The total amount being split

2 If 18 cookies are split evenly between 3 people, how many does each person get? (18 ÷ 3)

3 Have you ever had to babysit, or be babysat by, an older or younger sibling? Write 1-2 sentences about it.

The Great Babysitting Rescue

Name: _____ **Date:** _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Dinner Is Almost Ready

Mom and Dad just texted — they're 20 minutes away. Zoe wants to make sure everything's fair and settled before they walk in.

1. Milo has 29 crayons to split evenly between 4 art projects. How many crayons per project, and what's the remainder? (Write like "7 R1")

2. Zoe wants to divide 63 minutes of remaining free time evenly between 3 activities (drawing, building blocks, and reading). How many minutes per activity? Show your work.

3. There are 41 stickers to divide evenly between Zoe and Milo (2 people). How many does each person get, and how many are left over?

4. Explain in 1-2 sentences: why is it important to know the REMAINDER, not just the quotient, when you're trying to be fair?

★ **Challenge:** Write your own division word problem about a real fair-sharing situation (siblings, friends, or family) — using the words "dividend," "divisor," and "remainder." Then solve it.

Looking Ahead: Next week, a new story and a new challenge — bring this sheet back to your next lesson!

KCE PATHWAYS · GRADES 4–5 · UNIT 1: FIRST STEPS · WEEK 2 · READING

Two Sides of the Story

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

Before the Pretzels

Before you meet Zoe and Milo, warm up your reading brain — and your handwriting — on last week's skills AND today's new ones.

REV Quick Review from Week 1: In your own words, what does it mean to INFER something while reading? Write your answer in a full sentence.

1 Match each word to its meaning. Write the matching letter next to each word.

___ **empathy**	**A.** The reason a character does something
___ **motive**	**B.** The actual words characters say to each other
___ **dialogue**	**C.** The particular way one character sees or feels about events
___ **perspective**	**D.** Understanding and sharing how someone else feels

2 Handwriting Focus: Copy this sentence in your best cursive or print: “Two people can live the same moment and feel two different things.”

3 Think of a moment when you and a sibling, friend, or family member saw the SAME event totally differently. Write 2-3 sentences about it.

KCE PATHWAYS · GRADES 4–5 · UNIT 1: FIRST STEPS · WEEK 2 · READING

Two Sides of the Story

Name: _____ Date: _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

One Afternoon, Two Stories

You read Zoe's side and Milo's side. Now show what you learned about perspective, motive, and theme — with your very best handwriting.

1. In 3-4 sentences, describe how Zoe's perspective on the pretzel moment was different from Milo's. Use complete sentences and your neatest handwriting.

2. Find ONE line of DIALOGUE (actual words a character says) from either Zoe's or Milo's side of the story. Copy it exactly, word for word, in your best handwriting.

3. In your own words, write what this story's THEME is. Write in full sentences.

★ **Challenge:** Write the SAME short moment (4-5 sentences) from two different perspectives — like a sibling, friend, or classmate seeing the same event differently. Use your best cursive or print — this is a handwriting sample, so take your time!

Handwriting Check: Before turning this in, look back over everything you wrote today. Are your letters sitting on the lines? Are your capital letters and periods where they should be?

Looking Ahead: Next week, a new story and a new challenge — bring this sheet back to your next lesson!

KCE PATHWAYS · GRADES 4-5 · UNIT 1: FIRST STEPS · WEEK 2 · SCIENCE

Ecosystems and Food Webs

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

What Do I Already Know?

Answer before the lesson. It is OK to guess!

1. Where do you think the energy in your lunch first came from? Explain.

2. Draw a food chain with at least 3 living things. Add arrows.

3. Prediction: What would happen in a forest if all the rabbits disappeared?

4. Write one question you wonder about plants, animals or ecosystems.

KCE PATHWAYS · GRADES 4-5 · UNIT 1: FIRST STEPS · WEEK 2 · SCIENCE

Ecosystems and Food Webs

Name: _____ **Date:** _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Show What I Learned

Use the new vocabulary and evidence from the lesson.

1. Label each one producer, consumer or decomposer: oak tree, mushroom, owl, grass, deer.

2. Draw a food web with at least 5 living things. Make the arrows show “gives energy to.”

3. Use the island lab data: what happened to the foxes after the rabbit disease, and why? Use numbers.

4. Look at your rabbit prediction on Page 1. What would you change now, and why?

★ **Challenge:** Rachel Carson showed that a poison sprayed on insects ended up in eagles. Explain how this could happen, using the words food chain and consumer.

Looking Ahead: Next week: Adaptations and Survival. Bring a question: What body part or behavior helps an animal near your home survive?

KCE PATHWAYS · GRADES 4-5 · UNIT 1: FIRST STEPS · WEEK 2 · SOCIAL STUDIES

Life in America Before 1492 (I)

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

What Do I Already Know About Life Before 1492?

Answer what you can. There are no wrong guesses on this page!

1. Who lived in North America before 1492? Write anything you know.

2. Predict: How could a city be built 1,000 years ago without machines?

3. Draw what you think a city or town in North America looked like 1,000 years ago. Label two parts.

4. Circle one: Before 1492, North America was home to **a few** / **hundreds of** nations. What makes you think so?

5. What is one question you wonder about people who lived before 1492?

KCE PATHWAYS · GRADES 4-5 · UNIT 1: FIRST STEPS · WEEK 2 · SOCIAL STUDIES

Life in America Before 1492 (I)

Name: _____ **Date:** _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Show What I Learned

Use evidence from the lesson in your answers.

1. Describe Cahokia. Use at least two facts (where it was, when, or what its people built).

2. Explain the Great Law of Peace. Who brought it, and what power did clan mothers have?

3. Compare: How do we know about Cahokia, and how do we know about the Great Law? Why are the kinds of evidence different?

4. Name one object that traveled far in a trade network and where it came from.

★ **Challenge:** An old book calls North America before 1492 “an empty wilderness.” Write two pieces of evidence from today's lesson that prove it wrong.

Looking Ahead: Next week we visit Tenochtitlan, the Inca roads, Pacific Northwest nations, and the West African empire of Mali under Mansa Musa. Bring this question: How were these places connected to the wider world?
