KCE PATHWAYS · GRADE 3 · UNIT 5: DATA AND DESIGN · WEEK 22 · READING

Into the Dark — Teacher Lesson Plan & Answer Key

Learning objectives: Students use text features and search tools to find information quickly in a nonfiction field guide: the table of contents (front, sections in page order) versus the index (back, topics in ABC order with every page), keywords, sidebars, hyperlinks, captions, labeled diagrams, bold words and the glossary, and they choose the fastest tool for a question.

Duration: 35–45 minutes
Materials: Computer or tablet with the lesson open · pencil · printed Pre & Post sheet

Lesson flow (as it appears on screen)

1. Title and name: the student types first and last name so results go to KingCretot Experience. Read the Pathway Points rules together: 2 tries per question, points only for a correct first try, and the answer and reason appear after a second miss. Introduce Mammoth Cave National Park in south-central Kentucky with Keira, her cousin Luca and Grandpa Lionel, and the field guide Into the Dark.
2. Warm-Up, Part 1: Week 21 Review (6 pts, 3 each): main idea and key details in a short sea otter text (a different text in each set).
3. Warm-Up, Part 2 (6 pts, 3 each): two more main idea items with the same text, including a size test or find-the-mistake.
4. Pencil Break (Pre): the student opens or prints the Pre/Post sheet (grade3/prepost/KCE_Reading_PrePost_G3W22.pdf) and completes Page 1 (Pre) before any teaching. Do not help with answers; it shows what they already know.
5. Word Wrangler: 6 vocabulary cards (index, keyword, sidebar, passage, limestone, endangered).
6. Picture It: The Map of a Field Guide. Front (title and table of contents), middle (headings, bold words, captions, diagrams, sidebars) and back (glossary and index). Ask: which part would you use first to find a small topic?
7. Read: Into the Dark (table of contents, six pages of facts, the glossary on page 8 and the index on page 9). Have the student point to one heading, one caption, the diagram and the Fast Facts sidebar.
8. Table of Contents vs. Index, Part 1 (6 pts, 3 each): big section, use the contents; small topic, use the index (for example, bats, 5, 7).
9. Table of Contents vs. Index, Part 2 (3 pts): one more contents-or-index item (crickets and Frozen Niagara are only in the index).
10. Keywords and Search Tools, Part 1 (6 pts, 3 each): choosing the keyword (skip small words like how, the and does), using the index, and the Fast Facts sidebar.
11. Keywords and Search Tools, Part 2 (3 pts): a weak search, a hyperlink (blue, underlined words online) or the sidebar shortcut.
12. Diagrams and Captions, Part 1 (6 pts, 3 each): follow each label line on the page 4 diagram (stalactite, water drip, stalagmite, column); a caption can give facts that are not in the main text.
13. Diagrams and Captions, Part 2 (3 pts): a two-step diagram-plus-glossary or index-plus-page item, or a find-the-mistake label.
14. Choose the Fastest Tool, Part 1 (6 pts, 3 each): meaning, glossary; page, contents or index; quick number or year, sidebar; what a picture shows, caption; parts, diagram.

15. Choose the Fastest Tool, Part 2 (3 pts): the fastest path to an answer, or a find-the-mistake item (the index gives pages, not meanings).
16. Word Work Bonus, Part 1: The Suffix -less (XP only, not scored).
17. Word Work Bonus, Part 2: The Suffix -less (XP only, not scored).
18. Match-Up Round (10 pts, 2 per first-try match): Set 1 matches text features to their jobs, Set 2 matches cave words to meanings, Set 3 matches field guide pages to what they hold.
19. Fix the Sentence (10 pts, 5 each): each item names the one kind of fix (capital letters, end mark, list commas, or one verb). The whole sentence is checked exactly; curly quotes and extra spaces are forgiven. The corrected sentence appears after the 2nd miss.
20. ⌨ Type-It Corral, Part 1 (8 pts, 4 each): typed vocabulary and text-detail answers; capital letters and a final period do not matter, but spelling does. The “Look back” panel is allowed.
21. ⌨ Type-It Corral, Part 2 (4 pts): more typed answers, same checking rules.
22. Speed Arena, Part 1 (XP only, not scored).
23. Speed Arena, Part 2 and Keyboard Corral (XP only, not scored).
24. Boss Battle, Part 1: Deep Cave Challenge (10 pts, 5 each): index and page lookups, a two-step years-apart item (1981 − 1941 = 40), and find-the-mistake or which-explanation items about the contents, the index and trying another keyword.
25. Boss Battle, Part 2: Deep Cave Challenge (10 pts, 5 each): typed answers found with the index and glossary, a two-step page count, and a find-the-mistake item answered from page 5.
26. Pencil Break (Post): the student turns to Page 2 (Post) of the same sheet (grade3/prepost/KCE_Reading_PrePost_G3W22.pdf) and completes it, plus the ★ Challenge if time allows, before seeing the score. The sheet buttons let the student open or print it again.
27. Results (Lesson Complete!): the score out of 100 is sent to KingCretot Experience. 85 or higher shows “Text Feature Champion!” with the congratulations message “Text feature champion!” and a big confetti burst; below 85 shows “Great Effort Today!” with encouragement (“Stephen Bishop explored the cave one passage at a time. Every try helps you learn the way!”), and the next attempt brings a fresh question set (sets rotate 1, 2, 3). Both messages remind the student to finish the Post-Lesson Challenge sheet.

Lesson answer key with reasoning

Every scored item the student sees, in order, across all three rotating question sets. Each item allows 2 tries and earns Pathway Points only on a correct first try. The "why" is the same reasoning shown on screen after a second missed try.

WARM-UP: WEEK 21 REVIEW (3 POINTS EACH)

ID	Question	Answer	Why (explain to student)
`w1_s0`	Set 1: *Floating Pups A sea otter pup is born with fur so thick that it cannot dive underwater yet. It floats on the surface instead. When the mother dives for food, she may wrap her pup in kelp so it does not drift away. Mother sea otters take careful care of their floating pups.* Which sentence is the MAIN IDEA of Floating Pups? [Mother sea otters take careful care of their floating pups. / It floats on the surface instead. / A sea otter pup is born with fur so thick that it cannot dive underwater yet. / When the mother dives for food, she may wrap her pup in kelp.]	**Mother sea otters take careful care of their floating pups.**	The other sentences all show how a mother cares for a pup that can only float. The last sentence pulls them together.

ID	Question	Answer	Why (explain to student)
w2_s0	Set 1: Type your answer: In Floating Pups, the main idea is the ___ sentence. (Type first or last.)	**last** (also accepted: the last)	Mother sea otters take careful care of their floating pups is the last sentence. The details come first.
w3_s0	Set 1: Type your answer: “Pups have thick fur” is too ___ to be the main idea of Floating Pups. (Type big or small.)	**small** (also accepted: too small)	It is one detail. The paragraph is about how mothers care for pups that can only float.
w4_s0	Set 1: Which detail BEST supports the main idea of Floating Pups? [The mother may wrap her pup in kelp so it does not drift away. / Sea otters live in the ocean. / Kelp can grow very fast. / Seals have blubber.]	**The mother may wrap her pup in kelp so it does not drift away.**	Wrapping the pup in kelp shows the mother taking care of it. That proves the main idea.
w1_s1	Set 2: *The Comeback During the fur trade of the 1700s and 1800s, hunters took so many southern sea otters that only a few dozen were left, hiding off the rocky coast of Big Sur, California. Today, laws protect them. About 3,000 southern sea otters now live along the California coast. The southern sea otter has made a comeback.* Which sentence is the MAIN IDEA of The Comeback? [The southern sea otter has made a comeback. / Today, laws protect them. / About 3,000 southern sea otters now live along the California coast. / Hunters took many sea otters for their fur.]	**The southern sea otter has made a comeback.**	The details tell how few otters were left and how many live there now. Together they prove the otters made a comeback.
w2_s1	Set 2: Type your answer: Key detail: About ___ southern sea otters now live along the California coast. (Type the number.)	**3,000** (also accepted: 3000, three thousand)	Going from a few dozen to about 3,000 is a key detail that proves the comeback.
w3_s1	Set 2: Which main idea for The Comeback is TOO BIG? [Animals can change over time. / The southern sea otter has made a comeback. / Laws protect sea otters. / Hunters took sea otters for their fur.]	**Animals can change over time.**	Animals can change over time could fit a whole science book. It does not tell about the sea otter comeback.
w4_s1	Set 2: Find the mistake! Keira says the main idea of The Comeback is “Today, laws protect them,” because it has the word today. What went wrong? [That is one detail. All the sentences together show the otters made a comeback, so the last sentence is the main idea. / The main idea is always the first sentence. / Laws do not protect sea otters. / Nothing went wrong.]	**That is one detail. All the sentences together show the otters made a comeback, so the last sentence is the main idea.**	Ask which sentence all the others explain. Laws protecting otters is one reason for the comeback.
w1_s2	Set 3: *Kelp Hideouts Fish hide among the long blades of the kelp. Young sea stars and sea urchins tuck themselves into the holdfasts. Sea otters wrap themselves in kelp when they rest.* Kelp Hideouts does not state its main idea. Put the details together. What is it? [Many sea animals use kelp as a place to hide or rest. / Fish have fins. / Sea otters rest. / Holdfasts grip rocks.]	**Many sea animals use kelp as a place to hide or rest.**	Fish, young sea stars, urchins, and otters all use the kelp. The details add up to: many animals use kelp to hide or rest.

ID	Question	Answer	Why (explain to student)
w2_s2	Set 3: Type your answer: “Fish hide among the long blades of the kelp” is too ___ to be the main idea of Kelp Hideouts. (Type big or small.)	**small** (also accepted: too small)	It tells about only one animal. The main idea must cover the fish, the sea stars and urchins, and the otters.
w3_s2	Set 3: Which explanation is correct? Luca says the main idea must be the first sentence, “Fish hide among the long blades of the kelp.” Keira says no sentence states it, so you add up the details. [Keira is right. The paragraph tells about many animals, so the main idea is not stated in one sentence. / Luca is right. The main idea is always first. / Luca is right, because fish are the most important. / Neither is right. This paragraph has no main idea.]	**Keira is right. The paragraph tells about many animals, so the main idea is not stated in one sentence.**	When no single sentence covers all the details, the main idea is not stated. You put it together yourself.
w4_s2	Set 3: Type your answer: Finish the main idea in your own words: Many sea ___ use kelp as a place to hide or rest. (Type one word.)	**animals** (also accepted: creatures)	Fish, sea stars, urchins, and otters are all sea animals that use the kelp.

TABLE OF CONTENTS VS. INDEX (3 POINTS EACH)

ID	Question	Answer	Why (explain to student)
t1a_s0	Set 1: Luca wants to read the whole section about how the cave formed. Which text feature gets him there fastest? [The table of contents, because it lists each section and the page where it starts. / The glossary, because it gives the meanings of words. / The caption on page 2, because it tells about the Green River. / The Fast Facts sidebar, because it lists years.]	**The table of contents, because it lists each section and the page where it starts.**	The table of contents lists How the Cave Formed, page 3. It is the fastest way to find a whole section.
t1b_s0	Set 1: Type your answer: Use the index. Which page tells about the Bottomless Pit? (Type the number.)	**6** (also accepted: page 6, six)	The index says: Bottomless Pit, 6.
t1c_s0	Set 1: Which explanation is correct? Keira says the index is at the front and lists sections in page order. Luca says the index is at the back and lists topics in ABC order with page numbers. [Luca is right. The index is at the back, in ABC order. The table of contents is at the front, in page order. / Keira is right. The index and the table of contents are the same thing. / Keira is right, because page 1 is the index. / Neither is right. Field guides do not have an index.]	**Luca is right. The index is at the back, in ABC order. The table of contents is at the front, in page order.**	Page 1 is the table of contents. Page 9, at the back, is the index.
t1a_s1	Set 2: Type your answer: Use the index. Bats are on page 5 and on page ___. (Type the number.)	**7** (also accepted: page 7, seven)	The index says: bats, 5, 7. Page 5 tells about cave animals, and page 7 tells about white-nose syndrome.
t1b_s1	Set 2: Type your answer: Use the table of contents. Stephen Bishop, Cave Explorer starts on page ___. (Type the number.)	**6** (also accepted: six, page 6)	The table of contents lists Stephen Bishop, Cave Explorer, 6.

ID	Question	Answer	Why (explain to student)
t1c_s1	Set 2: Find the mistake! Keira looked for crickets in the table of contents. She said the guide has nothing about crickets. What went wrong? [The table of contents lists only the big sections. The index lists small topics like crickets: page 5. / Crickets are in the glossary. / The guide really has nothing about crickets. / Nothing went wrong.]	**The table of contents lists only the big sections. The index lists small topics like crickets: page 5.**	Small topics hide inside sections. The index points right to them: crickets, 5.
t1a_s2	Set 3: Why does the index list temperature on TWO pages, 2 and 7? [Both pages tell about it: Fast Facts on page 2 gives 54 degrees, and page 7 says the cave stays cool all year. / The index made a mistake. / Temperature is a section title. / Page 7 is the glossary.]	**Both pages tell about it: Fast Facts on page 2 gives 54 degrees, and page 7 says the cave stays cool all year.**	An index lists every page where a topic shows up, not just one. That is how it helps you find every piece of information.
t1b_s2	Set 3: Type your answer: Two steps! Find stalagmite in the index and turn to that page. A stalagmite pushes up from the ___.	**floor** (also accepted: the floor, cave floor, the cave floor)	The index says stalagmite, 4. Page 4 says: A stalagmite pushes up from the floor.
t1c_s2	Set 3: Which explanation is correct? Luca says the table of contents lists Frozen Niagara. Keira says Frozen Niagara is listed in the index, and the table of contents shows only section titles like Cave Formations. [Keira is right. The index lists Frozen Niagara, 4. The table of contents only names the section Cave Formations. / Luca is right. Every topic is in the table of contents. / Luca is right, because Frozen Niagara is a section title. / Neither is right. Frozen Niagara is not in the guide.]	**Keira is right. The index lists Frozen Niagara, 4. The table of contents only names the section Cave Formations.**	Look at page 1: no Frozen Niagara. Look at page 9: Frozen Niagara, 4.

KEYWORDS AND SEARCH TOOLS (3 POINTS EACH)

ID	Question	Answer	Why (explain to student)
t2a_s0	Set 1: Keira wonders: What disease harms the bats in the cave? She does not know the disease's name yet. Which is the BEST keyword to look up in the index? [bats / what / the / disease]	**bats**	Bats is the topic word she knows, and the index lists bats, 5, 7. Page 7 names the disease: white-nose syndrome. Disease is not in the index.
t2b_s0	Set 1: Type your answer: Two steps! Look up jacket in the index and read that page. Bring a light jacket, because the cave stays ___ all year.	**cool**	The index says jacket, 7. Page 7 says: Bring a light jacket, because the cave stays cool all year.
t2c_s0	Set 1: Find the mistake! Luca wanted to learn how the cave formed. He typed "how is the" into a search box. What went wrong? [Those are small words, not keywords. He should type a topic word, like limestone or cave formed. / He should have typed more small words. / Search boxes only work for numbers. / Nothing went wrong.]	**Those are small words, not keywords. He should type a topic word, like limestone or cave formed.**	A keyword names the topic. Small words like how, is, and the appear on almost every page.
t2a_s1	Set 2: Type your answer: Question: How many kinds of cave crickets live in the cave? Look up crickets in the index and read that page. Answer: ___ kinds. (Type the number.)	**3** (also accepted: three, 3 kinds, three kinds)	The index says crickets, 5. Page 5 says: three kinds of cave crickets.

ID	Question	Answer	Why (explain to student)
t2b_s1	Set 2: What is a sidebar? [A box beside the main text with extra facts, like Fast Facts on page 2. / The list of word meanings at the back. / The words under a picture. / The title of a section.]	**A box beside the main text with extra facts, like Fast Facts on page 2.**	A sidebar sits beside the main text. It gives quick extra facts, like the Fast Facts box.
t2c_s1	Set 2: Which explanation is correct? In the online field guide, the words white-nose syndrome are blue and underlined. Keira says they are a hyperlink you can click to jump to more information. Luca says they are blue only to look pretty. [Keira is right. Blue, underlined words online are often hyperlinks that take you to more information. / Luca is right. Colors never mean anything. / Luca is right, because only pictures can be clicked. / Neither is right. They are a caption.]	**Keira is right. Blue, underlined words online are often hyperlinks that take you to more information.**	A hyperlink is a search tool. Clicking it jumps you to another page with more facts.
t2a_s2	Set 3: Luca wants to know who crossed the Bottomless Pit. Which index entry takes him to the answer? [Bottomless Pit, 6 / cavefish, 5 / temperature, 2, 7 / stairs, 7]	**Bottomless Pit, 6**	The keyword is Bottomless Pit. Page 6 says Stephen Bishop and a visitor crossed it.
t2b_s2	Set 3: Type your answer: Use the sidebar on page 2. Mammoth Cave became a national park in ___. (Type the year.)	**1941**	The Fast Facts sidebar says: Became a national park: 1941.
t2c_s2	Set 3: Find the mistake! Keira wanted to know when the park became a World Heritage Site. She started reading every page from page 1. What could she have done faster? [Read the Fast Facts sidebar on page 2. It says 1981. / Read the glossary first. / Skip the guide, because it does not say. / Nothing. Reading every page is always fastest.]	**Read the Fast Facts sidebar on page 2. It says 1981.**	A sidebar collects quick facts, like years, in one box. It saves time.

DIAGRAMS AND CAPTIONS (3 POINTS EACH)

ID	Question	Answer	Why (explain to student)
t3a_s0	Set 1: Look at the diagram on page 4. What forms when a stalactite and a stalagmite meet? [A column / A passage / A water drip / A sidebar]	**A column**	The diagram shows a stalactite and a stalagmite joined together, with the label Column.
t3b_s0	Set 1: Type your answer: The caption on page 5 says the Kentucky cave shrimp grows to about ___ inches long. (Type the number.)	**1.25** (also accepted: 1 1/4, one and a quarter, 1 and 1/4, 1.25 inches, 1 1/4 inches, 1¼, one and one fourth, one and one quarter, 1 and a quarter)	Caption: The Kentucky cave shrimp grows to about 1.25 inches long.
t3c_s0	Set 1: Two steps! Step 1: Find the diagram label that points UP from the floor. Step 2: Use the glossary. What does that word mean? [A formation that pushes up from a cave floor / A formation that hangs down from a cave ceiling / A long, narrow path through a cave / A disease that harms bats]	**A formation that pushes up from a cave floor**	The label is Stalagmite. The glossary says: a formation that pushes up from a cave floor.

ID	Question	Answer	Why (explain to student)
t3a_s1	Set 2: Type your answer: In the diagram on page 4, the formation that hangs down from the ceiling is labeled ___.	**stalactite** (also accepted: a stalactite, stalactites)	The label Stalactite points to the rock hanging down from the ceiling.
t3b_s1	Set 2: Which fact do you learn ONLY from a caption, not from the main text? [The Green River flows through Mammoth Cave National Park. / Mammoth Cave is the longest known cave system in the world. / A stalactite hangs down from the ceiling. / Stephen Bishop drew a map in 1842.]	**The Green River flows through Mammoth Cave National Park.**	The Green River is named only in the caption under the river picture on page 2. The others are in the main text.
t3c_s1	Set 2: Find the mistake! Luca says the label Water drip points to the column. What went wrong? [The Water drip label points to the drop falling from the tip of the stalactite, not to the column. / There is no Water drip label. / The column is made of water. / Nothing went wrong.]	**The Water drip label points to the drop falling from the tip of the stalactite, not to the column.**	Follow each label's line to the part it names. The Water drip line ends at the blue drop under the stalactite.
t3a_s2	Set 3: What is the job of the caption under the river picture on page 2? [It tells what the picture shows: the Green River flowing through the park. / It lists every section of the guide. / It gives the meaning of passage. / It tells where the index is.]	**It tells what the picture shows: the Green River flowing through the park.**	A caption explains a picture, so you know what you are looking at.
t3b_s2	Set 3: Type your answer: Count the labels on the diagram on page 4. How many labels are there? (Type the number.)	**4** (also accepted: four)	The labels are Stalactite, Water drip, Stalagmite, and Column. That makes 4.
t3c_s2	Set 3: Two steps! Find Frozen Niagara in the index. Turn to that page. What kind of rock is Frozen Niagara made of? [Flowstone / Sandstone / Limestone from the roof / A column]	**Flowstone**	The index says Frozen Niagara, 4. Page 4 says it is a giant wall of rock called flowstone.

CHOOSE THE FASTEST TOOL (3 POINTS EACH)

ID	Question	Answer	Why (explain to student)
t4a_s0	Set 1: Keira sees the bold word endangered on page 5. Where can she find its meaning, and what does it say? [In the glossary: in danger of dying out forever. / In the index: page 5. / In the caption: about 1.25 inches long. / In the table of contents: Animals in the Dark.]	**In the glossary: in danger of dying out forever.**	Bold words are important words that are explained in the glossary. The glossary says endangered means in danger of dying out forever.
t4b_s0	Set 1: Type your answer: Two steps! Find the bold word on page 3 that names the tough rock on top of the cave. Type the word.	**sandstone**	Page 3 says a layer of tough sandstone sits on top like a roof. The glossary says sandstone is a tough rock made of tiny grains of sand.
t4c_s0	Set 1: Which path is fastest for this question: In what year did Stephen Bishop draw his map? [Look up map in the index, then read page 6. / Look up map in the glossary. / Read the Fast Facts sidebar. / Study the diagram on page 4.]	**Look up map in the index, then read page 6.**	The index says map, 6. Page 6 says Stephen drew the map in 1842.
t4a_s1	Set 2: Type your answer: Use the glossary. A long, narrow path through a cave is called a ___.	**passage** (also accepted: a passage)	The glossary says: passage, a long, narrow path through a cave.

ID	Question	Answer	Why (explain to student)
t4b_s1	Set 2: Which question would the GLOSSARY answer? [What does limestone mean? / Which pages tell about bats? / When did the park become a national park? / Where does the Water drip label point?]	**What does limestone mean?**	The glossary gives meanings. The index gives pages, the sidebar gives quick facts, and the diagram shows parts.
t4c_s1	Set 2: Find the mistake! Keira wanted the meaning of formation, so she looked in the index. What went wrong? [The index gives page numbers, not meanings. The glossary says a formation is a shape of rock built up slowly in a cave. / Formation is not a real word. / She should have looked at the caption on page 2. / Nothing went wrong.]	**The index gives page numbers, not meanings. The glossary says a formation is a shape of rock built up slowly in a cave.**	Use the glossary for meanings and the index for pages.
t4a_s2	Set 3: Which text feature tells the temperature inside the cave the FASTEST? [The Fast Facts sidebar on page 2 / The glossary on page 8 / The diagram on page 4 / The caption on page 5]	**The Fast Facts sidebar on page 2**	The sidebar says: about 54 degrees Fahrenheit all year.
t4b_s2	Set 3: Type your answer: Two steps! Use the table of contents to find Visiting Safely. After a tour, visitors walk across special ___.	**mats**	Visiting Safely starts on page 7. It says visitors walk across special mats to help slow white-nose syndrome.
t4c_s2	Set 3: Which explanation is correct? Keira says bold words are important words that are explained in the glossary. Luca says bold words are the names of the sections. [Keira is right. The bold words, like limestone and column, are in the glossary. Section names are headings. / Luca is right. Bold words are headings. / Luca is right, because bold words are on page 1. / Neither is right. Bold words are captions.]	**Keira is right. The bold words, like limestone and column, are in the glossary. Section names are headings.**	Headings name sections. Bold words flag important words you can look up in the glossary.

MATCH-UP ROUND (2 POINTS PER FIRST-TRY MATCH)

ID	Question	Answer	Why (explain to student)
match_s0_1	Set 1: Match Table of contents	**front list of sections in page order**	2 points if matched on the first try.
match_s0_2	Set 1: Match Index	**back list of topics in ABC order**	2 points if matched on the first try.
match_s0_3	Set 1: Match Glossary	**meanings of important words**	2 points if matched on the first try.
match_s0_4	Set 1: Match Caption	**tells what a picture shows**	2 points if matched on the first try.
match_s0_5	Set 1: Match Sidebar	**a box of extra facts beside the text**	2 points if matched on the first try.
match_s1_1	Set 2: Match Stalactite	**hangs down from the ceiling**	2 points if matched on the first try.
match_s1_2	Set 2: Match Stalagmite	**pushes up from the floor**	2 points if matched on the first try.
match_s1_3	Set 2: Match Column	**where the two formations meet**	2 points if matched on the first try.

ID	Question	Answer	Why (explain to student)
match_s1_4	Set 2: Match Limestone	**rock that water can dissolve**	2 points if matched on the first try.
match_s1_5	Set 2: Match Sandstone	**tough rock roof on top**	2 points if matched on the first try.
match_s2_1	Set 3: Match Page 2	**welcome and Fast Facts**	2 points if matched on the first try.
match_s2_2	Set 3: Match Page 4	**the formations diagram**	2 points if matched on the first try.
match_s2_3	Set 3: Match Page 5	**animals in the dark**	2 points if matched on the first try.
match_s2_4	Set 3: Match Page 6	**Stephen Bishop**	2 points if matched on the first try.
match_s2_5	Set 3: Match Page 9	**the index**	2 points if matched on the first try.

FIX THE SENTENCE (5 POINTS EACH)

ID	Question	Answer	Why (explain to student)
fx1_s0	Set 1: Fix the sentence. Two names and a place need capital letters. keira and luca explored mammoth cave.	**Keira and Luca explored Mammoth Cave.**	Keira and Luca are names, and Mammoth Cave is the name of a place, so each word gets a capital letter.
fx2_s0	Set 1: Fix the sentence. This asking sentence needs the right end mark. Did you bring a jacket	**Did you bring a jacket?**	An asking sentence ends with a question mark.
fx1_s1	Set 2: Fix the sentence. Add commas to separate the things in the list. The index lists bats crickets and cavefish.	**The index lists bats, crickets, and cavefish.** (also accepted: The index lists bats, crickets and cavefish.)	Use commas to separate three or more things in a list.
fx2_s1	Set 2: Fix the sentence. The name of a state needs a capital letter. Mammoth Cave is in kentucky.	**Mammoth Cave is in Kentucky.**	Kentucky is the name of a state, so it gets a capital K.
fx1_s2	Set 3: Fix the sentence. Fix the one grammar mistake. The stalactites hangs from the ceiling.	**The stalactites hang from the ceiling.**	Stalactites is more than one, so the verb is hang, not hangs.
fx2_s2	Set 3: Fix the sentence. This sentence shows strong feeling. It needs an exclamation point. What a long passage this is	**What a long passage this is!**	A sentence that shows strong feeling, like surprise, ends with an exclamation point.

⌨ TYPE-IT CORRAL (4 POINTS EACH)

ID	Question	Answer	Why (explain to student)
ty1_s0	Set 1: Type your answer: Explorers have mapped more than ___ miles of passages. (Type the number.)	**420** (also accepted: four hundred twenty, 420 miles)	Page 2: Explorers have mapped more than 420 miles of passages.
ty2_s0	Set 1: Type your answer: The glossary is on page ___. (Type the number.)	**8** (also accepted: eight)	The table of contents lists Glossary, 8.
ty3_s0	Set 1: Type your answer: Mammoth Cave is carved in a rock called ___.	**limestone**	Page 3: Mammoth Cave is carved in a rock called limestone.
ty1_s1	Set 2: Type your answer: Fast Facts says the cave stays about ___ degrees Fahrenheit all year. (Type the number.)	**54** (also accepted: fifty-four, fifty four, 54 degrees)	The sidebar says: about 54 degrees Fahrenheit all year.

ID	Question	Answer	Why (explain to student)
ty2_s1	Set 2: Type your answer: Stephen Bishop arrived at Mammoth Cave in ___. (Type the year.)	**1838**	Page 6: Stephen Bishop arrived at Mammoth Cave in 1838.
ty3_s1	Set 2: Type your answer: The most famous formation in Mammoth Cave is Frozen ___.	**Niagara** (also accepted: niagara)	Page 4: The most famous formation in Mammoth Cave is Frozen Niagara.
ty1_s2	Set 3: Type your answer: The index is on page ___. (Type the number.)	**9** (also accepted: nine)	The table of contents lists Index, 9.
ty2_s2	Set 3: Type your answer: Page 2 says the name Mammoth means ___.	**huge**	Page 2: The name Mammoth means huge. It comes from the giant passages.
ty3_s2	Set 3: Type your answer: Stephen Bishop drew a map of the cave from memory in ___. (Type the year.)	**1842**	Page 6: In 1842, Stephen drew a map of the cave's passages from memory.

BOSS BATTLE: DEEP CAVE CHALLENGE (5 POINTS EACH)

ID	Question	Answer	Why (explain to student)
bb1_s0	Set 1: Type your answer: Two steps! Look up cavefish in the index and turn to that page. How many kinds of eyeless cavefish live in the cave? (Type the number.)	**2** (also accepted: two, 2 kinds, two kinds)	The index says cavefish, 5. Page 5 says two kinds of eyeless cavefish.
bb2_s0	Set 1: Find the mistake! Luca says the table of contents and the index are the same, because both have page numbers. What went wrong? [Both have page numbers, but the contents lists sections in page order at the front, and the index lists topics in ABC order at the back. / Only the index has page numbers. / The glossary is the same as the index. / Nothing went wrong.]	**Both have page numbers, but the contents lists sections in page order at the front, and the index lists topics in ABC order at the back.**	Same page numbers, different jobs. Contents: big sections, front, page order. Index: small topics, back, ABC order.
bb3_s0	Set 1: Type your answer: Keira asks: Who drew a map of the cave from memory? Look up map in the index and read that page. Type the explorer's first and last name.	**Stephen Bishop** (also accepted: stephen bishop, Bishop)	The index says map, 6. Page 6 says Stephen Bishop drew a map of the passages from memory in 1842.
bb4_s0	Set 1: Type your answer: Two steps! Find the bold word on page 5 that means "in danger of dying out forever." Type the word.	**endangered**	Page 5 says the Kentucky cave shrimp is endangered. The glossary gives its meaning.
bb1_s1	Set 2: Type your answer: Two steps! Which section tells why you should not touch the cave walls? Find Visiting Safely in the table of contents. It starts on page ___. (Type the number.)	**7** (also accepted: seven, page 7)	Visiting Safely, page 7, tells visitors not to touch walls or formations, because the oil from hands can stop formations from growing.
bb2_s1	Set 2: Type your answer: Two steps! Fast Facts says the park became a national park in 1941 and a World Heritage Site in 1981. How many years apart are those dates? (Type the number.)	**40** (also accepted: forty, 40 years)	1981 minus 1941 is 40 years.

ID	Question	Answer	Why (explain to student)
bb3_s1	Set 2: Find the mistake! Keira says the Kentucky cave shrimp lives all over the United States. Which part of the guide proves her wrong? [Page 5 says it lives only in and near Mammoth Cave National Park. / The diagram on page 4 shows it in a column. / The Fast Facts sidebar says it lives in 1941. / Nothing proves her wrong.]	**Page 5 says it lives only in and near Mammoth Cave National Park.**	Page 5, the section about cave animals, says the shrimp lives only in and near the park.
bb4_s1	Set 2: Type your answer: Use the glossary. A formation made when a stalactite and a stalagmite meet is a ___.	**column** (also accepted: a column)	The glossary says: column, a formation made when a stalactite and a stalagmite meet.
bb1_s2	Set 3: Type your answer: Two steps! Look up Bishop, Stephen in the index. On that page, find the year he arrived at Mammoth Cave. (Type the year.)	**1838**	The index says Bishop, Stephen, 6. Page 6 says he arrived at Mammoth Cave in 1838.
bb2_s2	Set 3: Which explanation is correct? Luca wants to know why visitors walk on mats after a tour. He looks for mats in the index but cannot find it. Keira says to try another keyword, like white-nose syndrome, or use the table of contents to find Visiting Safely. [Keira is right. When one keyword is not in the index, try another keyword or check the table of contents. / Luca should give up, because the guide does not say. / Luca should look in the glossary for page numbers. / Neither is right. Mats are on page 4.]	**Keira is right. When one keyword is not in the index, try another keyword or check the table of contents.**	The index lists white-nose syndrome, 7, and the contents lists Visiting Safely, 7. Page 7 explains the mats.
bb3_s2	Set 3: Type your answer: Page 2 says the name Mammoth comes from the cave's giant ___, not from woolly mammoths.	**passages** (also accepted: passage)	Page 2 says the name means huge and comes from the giant passages, not from woolly mammoths.
bb4_s2	Set 3: Type your answer: Two steps! The field guide has 9 pages. The glossary and the index are the last 2 pages. How many pages come before the glossary? (Type the number.)	**7** (also accepted: seven, 7 pages, seven pages)	9 minus 2 is 7. Pages 1 to 7 come before the glossary on page 8.

Pre & Post sheet answer guide

Many items are open-ended. Grade for genuine understanding and complete sentences, not exact wording. Sheet: grade3/prepost/KCE_Reading_PrePost_G3W22.pdf.

PRE-LESSON WARM-UP

#	Prompt	Model answer / grading note
1	Review: bats text; main idea sentence and where it is	Bats are busy night animals. It is the last sentence.
2	Where is the table of contents?	at the front
3	Part of the book that tells what a bold word means	the glossary
4	What is a caption?	Answers vary before the lesson. Model: the words under or beside a picture that tell what it shows.
5	Draw the inside of a cave and label one part	Answers vary. Check that one part is labeled (ceiling, floor, or a rock that hangs down).

POST-LESSON CHALLENGE

#	Prompt	Model answer / grading note
1	Contents: page where Bat Homes starts; what its picture shows	Page 3. The caption says the picture shows a gray bat hanging upside down in a cave.
2	Index: pages about wings; why two pages	Pages 2 and 3. The index lists every page where a topic shows up, and wings are on both pages.
3	Do bats live in caves? Keyword and page	Keyword: caves. The index says caves, 3, so turn to page 3. (Accept bats as a first keyword if the student then uses caves to find page 3.)
4	Luca used the glossary to find which page tells about caves	The glossary tells what words mean, not which pages they are on. He should use the index: caves, 3.

★ CHALLENGE

#	Prompt	Model answer / grading note
1	Which tool tells what roost means? Why is it fastest?	The glossary (page 4). It gives the meaning right away, and its words are in ABC order. The index only gives the page (roost, 3), so you would still have to read that page.
