KCE PATHWAYS · GRADE 3 · UNIT 6: BUILDING TOGETHER · WEEK 26 · SCIENCE

The Moon and the Stars

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

Pre-Lesson Warm-Up: Look Up!

Write or draw what you already know. Guesses are welcome!

1. **Review from Unit 5:** A wildfire burns a forest. Name one living thing that might move away, and one way people could help the forest recover.

2. **Guess:** Why does the Moon seem to change shape during the month?

3. **Guess:** Which of these is a star?

   the Sun | the Moon | Mars

4. Draw the Moon the last time you saw it. Was it round, half, or a thin sliver?

5. Write one question you wonder about the Moon or the stars.

The Moon and the Stars

Name: _____ **Date:** _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Post-Lesson Activity: Sky Detective

Build the Moon Phase Model with a grown-up first. Then show what you learned.

1. **My Moon Phase Model:** Draw the ball at the start, then after 1, 2, and 3 quarter turns. Label each phase.

2. **Find the mistake:** "The Moon has phases because Earth's shadow covers part of it every night." Fix it and explain.

3. **Two steps:** A new moon is on March 8. The first quarter is 8 days later, and the full moon is 7 days after that. What is the date of the full moon?

4. **Explain:** The Sun and the other stars are all stars. Why does the Sun look so much bigger and brighter?

★ **Challenge:** Draw the Big Dipper. Circle the two **pointer stars** and draw a line to the star they point to. Name it.

Looking Ahead: Next week: **Heat on the Move.** Find out how heat travels from warmer things to cooler things, and which materials slow it down.
