PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

Pre-Lesson Warm-Up: Diving into Main Ideas

Do this part BEFORE the lesson. Try your best. It is okay if some of it feels new!

1. Review: Read this line from a play: JUNIE: *(whispering)* The otters are asleep. Who is speaking? Copy the stage direction.

2. The main idea of a paragraph is:

   the most important point | the very first word | one tiny detail | the page number

3. Read: Kelp grips rocks with a holdfast. Gas floats lift it up. Kelp grows so tall that it makes a forest under the sea. Which sentence do the other sentences help explain? Write it.

4. The main idea is: Sea otters eat a lot of food. Circle the detail that does NOT support it.

   They eat clams. | They dive for crabs. | Kelp is green. | They eat sea urchins.

5. Draw a sea otter floating in the kelp. Then write one fact you know about sea otters.

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Post-Lesson Activity: The Otter Toolbox

*Read: **Otter Toolbox.** An otter dives to the sea floor and grabs a clam. Sea otters are one of the few animals that use tools. An otter tucks a rock into the loose skin under its front leg. At the surface, it floats on its back and cracks the clam on the rock.*

1. Write the main idea sentence of Otter Toolbox. Is it first, in the middle, or last?

2. Write **too big**, **too small**, or **just right** for Otter Toolbox. a) Animals live in the sea. _____ b) An otter grabs a clam. _____ c) Sea otters use rocks as tools to get food. _____

3. Find the mistake: Joaquin says the main idea is "An otter dives to the sea floor," because it comes first. What went wrong?

4. Write two key details that prove the main idea. Use the word **because**.

★ **Challenge:** Write the main idea of the WHOLE booklet, Partners in the Kelp Forest, in your own words.

Looking Ahead: Next week: use text features and search tools, like the table of contents, index, glossary, captions, and diagrams, in a field guide to Mammoth Cave, Kentucky!
