# Winter Celebrations and the Longest Night

**Name:** _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

## What Do I Already Know About Winter Celebrations?

*Answer before the lesson. It is OK to guess!*

1. Why do you think winter nights are long? Guess!

2. Name a holiday that people celebrate in December or January.

3. Guess: Is it winter everywhere on Earth in December? Why do you think so?

4. Draw how your family or community makes a dark night bright. Label it.

5. Write one question you wonder about winter or the longest night.

# Winter Celebrations and the Longest Night

**Name:** _____ **Date:** _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

## What I Learned About the Longest Night

*Answer after the lesson. Use what you learned as evidence.*

1. Why are December nights long north of the equator? Use the word tilt.

2. Why is December summer in Australia?

3. Pick two celebrations. Tell one way they are the same and one way they are different.

4. Interview someone in your family: What is one tradition our family has at this time of year? Where did it come from? Write or draw what you learned.

★ **Challenge:** Look up the sunrise and sunset times for your town on two days, one week apart. Write both. Is your daylight growing or shrinking?

**Looking Ahead:** Welcome back, and happy new year! Your next Pathways lessons are waiting for you. Soon many families will celebrate Lunar New Year, on February 6 in 2027. Bring a question: Why does Lunar New Year fall on a different date each year?
