KCE PATHWAYS · GRADE 3 · UNIT 3: MARKET DAYS · WEEK 14 · MATH

Saturday at the Community Garden

Name: _____ Date: _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

Pre-Lesson Warm-Up: Saturday at the Community Garden

Try your best on each problem. Draw a picture if it helps!

1. Review: A rectangle has 3 rows of square tiles with 6 tiles in each row. What is its area in square units?

2. A garden bed is 5 feet long and 4 feet wide. Write the length of all 4 sides, then add them to find the distance around the bed.

3. Which word means the distance around a shape?

   perimeter area square unit array

4. A triangle has sides of 3 inches, 4 inches, and 5 inches. What is the distance around it?

5. Draw a rectangle 2 units wide and 4 units long. How many square units cover it? How many units is it around the edge?

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Post-Lesson Activity: Measuring the Garden

Perimeter goes around the edge (feet). Area covers the inside (square feet). Show your work and label your units.

1. A rectangle bed is 9 feet long and 6 feet wide. Find its perimeter AND its area. Label your units.

2. A square garden plot has a perimeter of 28 feet. How long is each side? Show how you know.

3. Two steps: A rectangle bed has a perimeter of 26 feet. It is 9 feet long. How wide is it?

4. Find the mistake: Mateo says a 1 by 9 bed and a 3 by 3 bed need the same amount of fence, because they both have an area of 9 square feet. Explain what is wrong.

5. Draw two different rectangles that each have a perimeter of 12 units. Write the area of each one.

★ **Challenge:** Priya has 16 feet of fence. List every rectangle with whole-number sides that she could build using all 16 feet. Which one gives the most planting space?

Looking Ahead: Next week is Checkpoint 3! You will review everything from Weeks 11 to 14: multiplication facts, division facts, area, and perimeter. Get ready to show what you know!
