A Night at the Bakery — Teacher Lesson Plan & Answer Key

Learning objectives: Students identify nonfiction text features (title, table of contents, headings, bold words, glossary, captions, diagrams and labels) and explain how each one helps a reader find and understand information, choosing the right feature to answer a question about the text.

Duration: 35–45 minutes
Materials: Computer or tablet with the lesson open · pencil · printed Pre & Post sheet

Lesson flow (as it appears on screen)

1. Title & name: student types first and last name so results go to KingCretot Experience; introduce the Chicago bakery setting and the word text features.
2. Warm-Up Review (12 pts): Week 11 main idea and key details, including a main idea table from last week's orange booklet. Quick oral recap: topic = one or two words; main idea = a whole sentence.
3. Pencil Break (Pre): student completes the Pre part of the paper sheet before any teaching. Do not help with answers; it shows what they already know.
4. Word Wrangler: eight vocabulary cards (text feature, table of contents, heading, bold word, glossary, caption, diagram, label). Have the student say each word and meaning back.
5. Picture It: the Text Feature Toolbox: a sample page with gold tags naming seven features, plus the toolbox cards. Tip: compare text features to street signs in a city.
6. Read the booklet A Night at the Bakery: table of contents, five pages with headings, bold words, a captioned picture (page 2), a labeled diagram (page 4), and a glossary (page 6). Have the student point to each text feature as they read.
7. Title, Table of Contents & Headings (9 pts): model jumping from the table of contents to a page; headings tell what a section is mostly about. Includes a two-step and a find-the-mistake item.
8. Bold Words & the Glossary (9 pts): bold = important; glossary = meanings in ABC order at the back. Tip: ask the student to find a bold word, then race to the glossary.
9. Captions, Diagrams & Labels (9 pts): a caption tells what a picture shows; labels name the parts of a diagram. Practice with the bike diagram, then the deck oven diagram.
10. Choose the Right Text Feature (9 pts): match the question to the tool (table of contents, heading, glossary, caption, diagram). Includes a two-step item and which-explanation reasoning.
11. Word Work Bonus (XP only): ABC order using the glossary words.
12. Match-Up (10 pts): five matches, 2 points each on the first try (features and jobs, questions and tools, or headings and facts, depending on the set).
13. Fix the Sentence (10 pts): two sentences tied to the booklet; capital letters, end marks, commas in a list. Answers are checked exactly, so remind the student to type the whole sentence.
14. Type-It Corral (12 pts): typed vocabulary and booklet facts; the Look back panel is allowed.
15. Speed Arena & Keyboard Corral (XP only): quick review and a typing sentence.
16. Boss Battle (20 pts): choosing features, two-step glossary/diagram/table-of-contents items, find the mistake, and a typed item.
17. Pencil Break (Post): student completes the Post part of the sheet, then presses See My Score.

18. Results: 85+ shows the text feature master congratulations with confetti; below 85 shows encouragement and a fresh question set on the next attempt.

WARM-UP REVIEW: MAIN IDEA & KEY DETAILS

w1_s0	[Set 1] The main idea of a text is: [The most important point the author makes about the topic / One small fun fact / The name of the author / The last word in the text]	**The most important point the author makes about the topic**	The main idea is the most important point the author makes about the topic.
w2_s0	[Set 1] What a text is about, in one or two words, is the ___.	**topic or the topic**	The topic names what a text is about in one or two words.

[Owls are built to hunt at night. / They have big eyes that see in the dark. / Their soft feathers let them fly without a sound.]	**Owls are built to hunt at night.**	The first sentence tells the most important point. The other two sentences are key details that show how owls hunt at night.
w4_s0	[Set 1] Remember last week's orange booklet? One leg of this main idea table is missing. Which key detail fits the empty leg? [Oranges are washed and sorted. / The orange blossom is the state flower of Florida. / Bees are black and yellow.]	**Oranges are washed and sorted.**	Washing and sorting is one of the steps oranges go through to become juice. The state flower fact is interesting, but it does not hold up this main idea.

w2_s1	[Set 2] Which one is a TOPIC, not a main idea? [Bread / Bakers work all night to make bread. / Bread is baked in hot ovens. / Flour is made from wheat.]	**Bread**	A topic is one or two words, like bread. The other choices are whole sentences that tell an important point.

[My cousin has a red bike. / They carry pollen from flower to flower. / They make honey.]	**My cousin has a red bike.**	A red bike has nothing to do with bees being busy helpers, so it is not a key detail.
w4_s1	[Set 2] Which explanation is correct? Jada says the main idea of a whole text is what all the paragraph main ideas have in common. Theo says it is always your favorite fact. [Jada is right, because the main idea of a whole text covers every paragraph / Theo is right, because your favorite fact is always the main idea / Both are right / Neither is right]	**Jada is right, because the main idea of a whole text covers every paragraph**	Your favorite fact might be only one small detail. The other sentences are not about trucks helping a city.
w4_s2	[Set 3] Find the mistake! Theo said a key detail is any fun fact, even if it does not tell about the main idea. What went wrong? [A key detail must support the main idea / Key details are always the first sentence / Fun facts are always key details / Nothing went wrong]	**A key detail must support the main idea**	A fun fact is only a key detail if it holds up the main idea.
