KCE PATHWAYS · GRADE 3 · UNIT 3: MARKET DAYS · WEEK 13 · READING

# Two Texts, One Harvest — Teacher Lesson Plan & Answer Key

**Learning objectives:** Students find the most important point and key details of two texts on the same topic (an article and a firsthand account about rice farming in the Mekong Delta, Vietnam), then compare and contrast them, sorting details into a Venn diagram and noticing how each text is told.

**Duration:** 35–45 minutes
**Materials:** Computer or tablet with the lesson open · pencil · printed Pre & Post sheet

## Lesson flow (as it appears on screen)

1. Title & name: student types first and last name so results go to KingCretot Experience; introduce the two texts about rice farming in the Mekong Delta.
2. Warm-Up Review (12 pts): text features from Week 12 (heading, caption, labels, bold print, glossary) using a sample page about rice. Ask the student to point to each feature on the page.
3. Pencil Break (Pre): student completes the Pre part of the paper sheet before any teaching. Do not help with answers; it shows what they already know.
4. Word Wrangler: six vocabulary cards (compare, contrast, Venn diagram, paddy, harvest, firsthand account). Have the student say each word and meaning back.
5. Picture It: the Venn diagram with a bike and a boat (outer parts = only one, middle = both) and the clue words. Ask: where would “has a seat” go?
6. Read Text A (article, 4 paragraphs with headings): point out that it gives facts about many farmers. Find the Mekong Delta in southern Vietnam on a map if you have one.
7. Read Text B (Linh’s firsthand account, 5 paragraphs): point out the words I, my, and we, and Linh’s feelings. Have the student read at least one paragraph aloud.
8. The Most Important Points (12 pts): main idea and key details of each text (Week 11 skill). Tip: ask “What is this whole text mostly about?” for each text before comparing.
9. What Is the Same? (12 pts): details both texts tell go in the middle of the Venn diagram. Model checking BOTH texts before placing a detail in the middle.
10. What Is Different? (12 pts): details only one text tells, and how each text is told (facts about many farmers vs. Linh’s own experience and feelings).
11. Word Work Bonus (XP only): compare and contrast clue words (both, but).
12. Match-Up (10 pts): five matches, 2 points each on the first try.
13. Fix the Sentence (10 pts): two sentences tied to the texts; capital letters, end marks, commas in a list. Answers are checked exactly, so remind the student to type the whole sentence.
14. Type-It Corral (12 pts): typed vocabulary and text facts; the “Look back at both texts” panel is allowed.
15. Speed Arena & Keyboard Corral (XP only): quick review and a typing sentence.
16. Boss Battle (20 pts): same vs. different statements, two-step Venn placement, find the mistake, and a typed item.
17. Pencil Break (Post): student completes the Post part of the sheet, then presses See My Score.
18. Results: 85+ shows the compare and contrast champion congratulations with confetti; below 85 shows encouragement and a fresh question set on the next attempt.

## Lesson answer key with reasoning

*Every scored item the student sees, in order, across all three rotating question sets. The "why" is the same reasoning shown on screen after a second missed try.*

### WARM-UP REVIEW: TEXT FEATURES

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| w1_s0 | [Set 1] Look at the page. What is the heading? [Growing Rice / A rice plant grows in water. / paddy / roots] | **Growing Rice** | A heading is the title of a page or section, in big letters at the top. It tells what the section is mostly about. |
| w2_s0 | [Set 1] The words under a picture that tell about it are called a ___. | **caption or captions or a caption** | A caption is the sentence under a picture or photo. On the page, the caption says: A rice plant grows in water. |
| w3_s0 | [Set 1] On the page, the word paddy is in bold print. A word in bold print usually means: [It is an important word to learn / It is spelled wrong / It is the name of the author / It is a word you can skip] | **It is an important word to learn** | Authors use bold print to show important words. You can often find their meanings in the glossary. |
| w4_s0 | [Set 1] Which text feature lists important words and tells what they mean? [The glossary / The heading / The caption / A label] | **The glossary** | A glossary is a list of important words and their meanings. The page has one at the bottom, and books usually have one at the back. |
| w1_s1 | [Set 2] A list of important words and their meanings is called a ___. | **glossary or a glossary or the glossary** | A glossary lists important words and tells what they mean. |
| w2_s1 | [Set 2] Look at the diagram on the page. Which label names the part of the plant that grows down in the mud? [roots / grain / stem / Growing Rice] | **roots** | The label roots points to the bottom of the plant, down in the brown mud. |
| w3_s1 | [Set 2] A rice book has a section about harvesting. Which text feature shows the page where that section starts? [The table of contents / The glossary / A caption / A label] | **The table of contents** | The table of contents lists each section and the page where it starts. |
| w4_s1 | [Set 2] Which explanation is correct? Theo says a caption is the title of the whole book. Mia says a caption is the sentence that tells about a picture. [Mia is right, because a caption tells about a picture / Theo is right, because a caption is the title of the book / Both are right / Neither is right, because captions are only in stories] | **Mia is right, because a caption tells about a picture** | A caption goes with a picture or photo and tells about it. The title names the whole book. |
| w1_s2 | [Set 3] Find the mistake! Theo said, "Headings are just decoration, so I skip them." What is wrong? [Headings tell what each section is about, so they help you find information / Headings are always at the end of a book / Headings only belong in made-up stories / Nothing is wrong] | **Headings tell what each section is about, so they help you find information** | Headings are useful. They tell what each section is mostly about. |

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| w2_s2 | [Set 3] Look at the page. Which text feature tells what the word paddy means? [The glossary / The caption / The heading / The label roots] | **The glossary** | The glossary at the bottom of the page says: paddy, a flooded field where rice grows. |
| w3_s2 | [Set 3] Words printed in dark, thick letters to show they are important are in ___ print. | **bold or boldface** | Bold print is dark and thick. It shows that a word is important. |
| w4_s2 | [Set 3] The words grain, stem, and roots on the diagram are called: [Labels / Headings / Captions / Glossaries] | **Labels** | Labels are words that name the parts of a picture or diagram. |

## THE MOST IMPORTANT POINTS OF EACH TEXT

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| t1a_s0 | [Set 1] What is the most important point of Text A? [Farmers in the Mekong Delta plant and grow rice in flooded fields, then harvest it when it is ripe. / A flock of ducks ate the grains in Linh's field. / Linh's hat is made of palm leaves. / It is cooler in the early morning.] | **Farmers in the Mekong Delta plant and grow rice in flooded fields, then harvest it when it is ripe.** | Text A explains all the steps: planting, growing, and harvesting rice. The other choices are small details, and all of them are from Text B. |
| t1b_s0 | [Set 1] What is the most important point of Text B? [Linh helped her family harvest rice, and she felt proud that they worked together. / Rice plants grow with their roots in the mud. / The Mekong River splits into smaller rivers. / Many farmers use big machines to cut rice.] | **Linh helped her family harvest rice, and she felt proud that they worked together.** | Text B is all about Linh's harvest day. She ends by saying she felt proud and "We did it together!" |
| t1c_s0 | [Set 1] Which explanation is correct? Theo says the most important point of Text B is that the stalks tickled Linh's arms. Mia says that is just a small detail, and the most important point is that Linh helped her family with the harvest. [Mia is right, because the whole text is about Linh helping with the harvest / Theo is right, because a funny detail is always the most important point / Theo is right, because the stalks are in paragraph 3 / Neither is right, because Text B has no important point] | **Mia is right, because the whole text is about Linh helping with the harvest** | The tickly stalks are one small detail. The most important point is what the whole text is mostly about: Linh helping her family harvest the rice. |
| t1a_s1 | [Set 2] Which key detail supports the most important point of Text A? [Farmers fill the paddies with water from the canals. / Linh woke up before the sun came up. / Linh is nine years old. / Next week, Linh's family will help their neighbors.] | **Farmers fill the paddies with water from the canals.** | Filling the paddies with water is part of how rice is planted and grown, so it supports Text A. The other details are from Text B. |
| t1b_s1 | [Set 2] The most important point of a text is also called the main ___. | **idea or main idea** | The most important point of a text is its main idea, just like you learned in Week 11. |

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| t1c_s1 | [Set 2] Find the mistake! Mia wrote that the most important point of Text A is "Some families use a sickle." What went wrong? [That is just one small detail, not what the whole text is mostly about / Text A never talks about sickles / A most important point must be a question / Nothing went wrong] | **That is just one small detail, not what the whole text is mostly about** | Text A does mention sickles, but only in one sentence. The whole text is about planting, growing, and harvesting rice. |
| t1a_s2 | [Set 3] Which key detail supports the most important point of Text B? [Linh carried bundles of rice stalks to the edge of the field. / Farmers in the delta grow about half of the rice in Vietnam. / Some farmers scatter rice seeds onto the wet field. / The water helps keep weeds away.] | **Linh carried bundles of rice stalks to the edge of the field.** | Carrying the bundles was Linh's job on harvest day, so it supports Text B. The other details are from Text A. |
| t1b_s2 | [Set 3] Before you compare two texts, what should you find first? [The most important point and key details of each text / The longest word in each text / The page numbers / The shortest paragraph] | **The most important point and key details of each text** | First find what each text is mostly about and its key details. Then you can tell what is the same and what is different. |
| t1c_s2 | [Set 3] Two steps! Step 1: Text A is mostly about how rice is planted, grown, and harvested. Step 2: Text B is mostly about Linh's harvest day. Which part of rice farming do BOTH texts tell about? [The harvest / Planting seeds / Machines that cut rice / Ducks in the field] | **The harvest** | Text A has a whole section called Harvesting, and Text B is about harvest day. Only Text A tells about planting and machines. Only Text B tells about the ducks. |

## WHAT IS THE SAME? (COMPARE)

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| t2a_s0 | [Set 1] Which detail belongs in the middle of the Venn diagram, because BOTH texts tell it? [Rice grains are dried in the sun. / Ducks eat the fallen grains. / Big machines cut the rice. / Seedlings are pushed into the mud.] | **Rice grains are dried in the sun.** | Text A says the grains are spread out to dry in the sun. Text B says Linh's family spread the grains on mats to dry in the sun. Both texts tell it! |
| t2b_s0 | [Set 1] Text A and Text B are both about growing ___ in the Mekong Delta. | **rice** | Both texts share the same topic: rice farming in the Mekong Delta. |
| t2c_s0 | [Set 1] Which explanation is correct? Theo says sickles go in the middle of the Venn diagram. Mia says sickles go only in the Text B circle, because only Linh's family uses them. [Theo is right, because Text A and Text B both tell about cutting rice with a sickle / Mia is right, because Text A never talks about sickles / Mia is right, because sickles are only used in stories / Neither is right, because neither text tells about sickles] | **Theo is right, because Text A and Text B both tell about cutting rice with a sickle** | Text A says some families cut the rice by hand with a curved knife called a sickle. Text B says Dad and Linh's uncle cut the rice with curved sickles. Both texts tell it, so it goes in the middle. |
| t2a_s1 | [Set 2] When you tell how two things are the same, you ___ them. | **compare** | To compare means to tell how things are the same. |

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| t2b_s1 | [Set 2] What word do BOTH texts use for a flooded field where rice grows? [paddy / grove / orchard / pasture] | **paddy** | Text A says rice grows in flooded fields called paddies. Text B says Linh's family has a rice paddy behind their house. |
| t2c_s1 | [Set 2] Find the mistake! Look at the middle of this Venn diagram. Which detail does NOT belong there? [Ducks eat fallen grains / Rice turns gold when ripe / Grains dry in the sun] | **Ducks eat fallen grains** | Only Text B tells about the ducks, so that detail belongs in the Text B circle. Both texts tell that ripe rice is gold and that grains dry in the sun. |
| t2a_s2 | [Set 3] Which word is a clue that a sentence COMPARES two things? [both / but / only / unlike] | **both** | Both is a compare word. It tells you that two things share something. But, only, and unlike are contrast words. |
| t2b_s2 | [Set 3] Which sentence correctly compares the two texts? [Both texts tell how rice grains are dried in the sun. / Both texts tell about ducks in the field. / Both texts tell about planting seedlings. / Both texts tell how Linh felt.] | **Both texts tell how rice grains are dried in the sun.** | Drying the grains in the sun is in Text A and Text B. The ducks and Linh's feelings are only in Text B, and seedlings are only in Text A. |
| t2c_s2 | [Set 3] Two steps! Step 1: find where the water in the paddies comes from in Text A. Step 2: find what Linh's house sits beside in Text B. What do BOTH texts mention? [Canals / Mountains / The ocean / A city park] | **Canals** | Text A says farmers fill the paddies with water from the canals. Text B says Linh's house sits beside a canal. |

## WHAT IS DIFFERENT? (CONTRAST)

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| t3a_s0 | [Set 1] Which detail is told ONLY in Text A? [Many farmers use big machines to cut the rice. / Rice grains dry in the sun. / Linh raked the grains. / The rice turns gold.] | **Many farmers use big machines to cut the rice.** | Only Text A tells about big machines. Both texts tell about drying grains and gold rice, and only Text B tells about Linh raking. |
| t3b_s0 | [Set 1] How is Text B told? [By Linh, who was there, using words like I and my / By an author who gives facts about many farmers / By Theo and Mia / With no words at all] | **By Linh, who was there, using words like I and my** | Text B is a firsthand account. Linh tells what happened to her, using I, my, and we. |
| t3c_s0 | [Set 1] Find the mistake! Theo put the detail about the ducks in the Text A circle. What went wrong? [Only Text B tells about the ducks, so it belongs in the Text B circle / Both texts tell about the ducks, so it belongs in the middle / Neither text tells about ducks / Nothing went wrong] | **Only Text B tells about the ducks, so it belongs in the Text B circle** | Text B says a neighbor led a flock of ducks into the empty field. Text A never mentions ducks. |
| t3a_s1 | [Set 2] Which detail is told ONLY in Text B? [Neighbors came to help with the harvest. / Farmers drain the water before the harvest. / Many farmers grow two or three crops a year. / The water helps keep weeds away.] | **Neighbors came to help with the harvest.** | Only Text B tells about neighbors helping. Both texts tell about draining the water, and only Text A tells about crops each year and weeds. |
| t3b_s1 | [Set 2] Text A tells about planting, growing, AND harvesting rice. Text B tells mostly about: [One harvest day / Planting seedlings / How big machines work / The whole Mekong River] | **One harvest day** | Text B tells about just one day: Linh's harvest day. That is an important difference between the texts. |

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| t3c_s1 | [Set 2] Which explanation is correct? Theo says the texts are different because only Text B tells the writer's feelings, like Linh feeling proud. Mia says they are different because only Text A tells facts about rice. [Theo is right, because only Text B tells how the writer felt / Mia is right, because Text B has no facts at all / Both are right / Neither is right] | **Theo is right, because only Text B tells how the writer felt** | Text B tells Linh's feelings, and Text A does not. But Text B has facts too, like the field being drained and the grains drying in the sun, so Mia is not right. |
| t3a_s2 | [Set 3] When you tell how two things are different, you ___ them. | **contrast** | To contrast means to tell how things are different. |
| t3b_s2 | [Set 3] Which sentence correctly CONTRASTS the two texts? [Text A tells about big machines that cut rice, but Text B does not. / Both texts say ducks eat fallen grains. / Text A says the rice turns gold, but Text B says it turns blue. / Text B tells about planting, but Text A does not.] | **Text A tells about big machines that cut rice, but Text B does not.** | A contrast tells a real difference. Only Text A tells about big machines. |
| t3c_s2 | [Set 3] Two steps! Step 1: find how many rice crops many delta farmers grow each year in Text A. Step 2: check whether Text B tells this. Which answer is correct? [Two or three crops, and only Text A tells it / Two or three crops, and both texts tell it / One crop, and both texts tell it / Five crops, and only Text B tells it] | **Two or three crops, and only Text A tells it** | Text A says many farmers grow two or even three rice crops each year. Text B never tells this, so it is a detail only in Text A. |

## MATCH-UP

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| m1_s0 | [Set 1] Compare | **tell how things are the same** | First-try matches earn 2 points each, 10 points in all. |
| m2_s0 | [Set 1] Contrast | **tell how things are different** | First-try matches earn 2 points each, 10 points in all. |
| m3_s0 | [Set 1] Venn diagram | **two circles that overlap** | First-try matches earn 2 points each, 10 points in all. |
| m4_s0 | [Set 1] Paddy | **a flooded field where rice grows** | First-try matches earn 2 points each, 10 points in all. |
| m5_s0 | [Set 1] Firsthand account | **told by someone who was there** | First-try matches earn 2 points each, 10 points in all. |
| m1_s1 | [Set 2] Text A | **an article with facts about many farmers** | First-try matches earn 2 points each, 10 points in all. |
| m2_s1 | [Set 2] Text B | **Linh's story of her own harvest day** | First-try matches earn 2 points each, 10 points in all. |
| m3_s1 | [Set 2] Topic of both texts | **rice farming in the Mekong Delta** | First-try matches earn 2 points each, 10 points in all. |
| m4_s1 | [Set 2] Middle of the Venn | **what both texts tell** | First-try matches earn 2 points each, 10 points in all. |
| m5_s1 | [Set 2] Outer parts of the Venn | **what only one text tells** | First-try matches earn 2 points each, 10 points in all. |

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| m1_s2 | [Set 3] both | **a word that shows things are the same** | First-try matches earn 2 points each, 10 points in all. |
| m2_s2 | [Set 3] but | **a word that shows things are different** | First-try matches earn 2 points each, 10 points in all. |
| m3_s2 | [Set 3] sickle | **a curved knife for cutting rice** | First-try matches earn 2 points each, 10 points in all. |
| m4_s2 | [Set 3] seedling | **a young plant** | First-try matches earn 2 points each, 10 points in all. |
| m5_s2 | [Set 3] harvest | **to gather crops when they are ripe** | First-try matches earn 2 points each, 10 points in all. |

## FIX THE SENTENCE

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| fx1_s0 | [Set 1] Fix the sentence. It needs a capital letter at the start. rice grows in flooded paddies. | **Rice grows in flooded paddies.** | Every sentence starts with a capital letter, so rice becomes Rice. |
| fx2_s0 | [Set 1] Fix the sentence. This telling sentence needs an end mark. Linh helped at the harvest | **Linh helped at the harvest.** | A telling sentence ends with a period. |
| fx1_s1 | [Set 2] Fix the sentence. Add commas to separate the things in the list. Linh saw boats ducks and canals. | **Linh saw boats, ducks, and canals. (also accepted: Linh saw boats, ducks and canals.)** | Use commas to separate three or more things in a list: boats, ducks, and canals. |
| fx2_s1 | [Set 2] Fix the sentence. It needs a capital letter at the start. did the ducks eat the rice? | **Did the ducks eat the rice?** | Every sentence starts with a capital letter, so did becomes Did. |
| fx1_s2 | [Set 3] Fix the sentence. It needs a capital letter at the start. the field turned gold. | **The field turned gold.** | Every sentence starts with a capital letter, so the becomes The. |
| fx2_s2 | [Set 3] Fix the sentence. This asking sentence needs an end mark. Do farmers drain the water | **Do farmers drain the water?** | An asking sentence ends with a question mark. |

## TYPE-IT CORRAL

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| ty1_s0 | [Set 1] Text A says the water in the paddies helps keep ___ away. | **weeds or weed** | Text A, paragraph 3: The water helps keep weeds away. |
| ty2_s0 | [Set 1] In Text B, Linh says her hat is shaped like a ___. | **cone or a cone** | Text B, paragraph 2: It is shaped like a cone and made of palm leaves. |
| ty3_s0 | [Set 1] Two circles that overlap to show what is the same and what is different make a ___ diagram. | **Venn or Venn diagram** | A Venn diagram has two circles that overlap. The middle shows what is the same. |
| ty1_s1 | [Set 2] Text A says young rice plants are called ___. | **seedlings or seedling** | Text A, paragraph 2: Others first grow young plants called seedlings. |
| ty2_s1 | [Set 2] In Text B, Linh turned the grains over with a wooden ___. | **rake** | Text B, paragraph 4: I raked them with a wooden rake to turn them over. |

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| ty3_s1 | [Set 2] A text told by someone who was there, using I and my, is a ___ account. | **firsthand or first-hand or first hand or firsthand account** | Text B is a firsthand account, because Linh was there and tells it herself. |
| ty1_s2 | [Set 3] Text A says farmers in the delta grow about ___ of all the rice in Vietnam. | **half or one half or 1/2** | Text A, paragraph 1: Farmers in the delta grow about half of all the rice in Vietnam. |
| ty2_s2 | [Set 3] In Text B, the grown-ups beat the bundles against a big wooden ___ to knock the grains loose. | **box** | Text B, paragraph 4: the grown-ups beat the bundles against a big wooden box. |
| ty3_s2 | [Set 3] In Text B, a flock of ___ ate the rice grains that had fallen on the ground. | **ducks or duck** | Text B, paragraph 5: The ducks ate the rice grains that had fallen on the ground. |

## BOSS BATTLE

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| bb1_s0 | [Set 1] Which sentence BEST tells how the two texts are the same? [Both texts tell about harvesting rice in the Mekong Delta. / Both texts are told by Linh. / Both texts tell about planting seedlings. / Both texts tell about ducks.] | **Both texts tell about harvesting rice in the Mekong Delta.** | Text A has a Harvesting section and Text B is about harvest day, and both take place in the Mekong Delta. Only Text B is told by Linh. |
| bb2_s0 | [Set 1] Two steps! Choose the answer that puts all three details in the right parts of the Venn diagram. [Text A only: big machines cut the rice. Both: rice grows in paddies. Text B only: neighbors come to help. / Text A only: neighbors come to help. Both: rice grows in paddies. Text B only: big machines cut the rice. / Text A only: rice grows in paddies. Both: big machines cut the rice. Text B only: neighbors come to help. / Text A only: big machines cut the rice. Both: neighbors come to help. Text B only: rice grows in paddies.] | **Text A only: big machines cut the rice. Both: rice grows in paddies. Text B only: neighbors come to help.** | Only Text A tells about machines. Both texts tell about paddies. Only Text B tells about neighbors helping. |
| bb3_s0 | [Set 1] Find the mistake! Mia wrote, "Text A and Text B are the same because both tell how the writer felt." What is wrong? [Only Text B tells the writer's feelings, while Text A gives facts / Neither text has any feelings or facts / Text A tells how Linh felt, but Text B does not / Nothing is wrong] | **Only Text B tells the writer's feelings, while Text A gives facts** | Linh tells her feelings in Text B: she was tired but proud. Text A is an article that gives facts, not the writer's feelings. |
| bb4_s0 | [Set 1] Text B is told by a girl named ___. | **Linh** | Text B begins: My name is Linh, and I am nine years old. |
| bb1_s1 | [Set 2] Which sentence BEST tells an important difference between the texts? [Text A explains all the steps of rice farming, but Text B tells about one harvest day. / Text A is about rice, but Text B is about oranges. / Text A has no facts, but Text B has only facts. / The two texts have no differences.] | **Text A explains all the steps of rice farming, but Text B tells about one harvest day.** | Text A covers planting, growing, and harvesting. Text B tells about one day in Linh's life. |

| ID | Question | Answer | Why (explain to student) |
|---|---|---|---|
| bb2_s1 | [Set 2] Two steps! Step 1: find what Text A says happens to the grains after the harvest. Step 2: find what Linh's family did with the grains after lunch. What do you find? [Both texts say the grains dry in the sun. / Only Text A says the grains dry in the sun. / Only Text B tells what happens to the grains. / Neither text tells what happens to the grains.] | **Both texts say the grains dry in the sun.** | Text A says the grains are spread out to dry in the sun. Text B says the family spread the grains on mats to dry in the sun. |
| bb3_s1 | [Set 2] Which explanation is correct? Theo says the detail two or three crops a year goes in the middle of the Venn diagram. Mia says it goes in the Text A circle, because Text B never tells it. [Mia is right, because only Text A tells about two or three crops a year / Theo is right, because both texts tell about crops each year / Theo is right, because every detail goes in the middle / Neither is right] | **Mia is right, because only Text A tells about two or three crops a year** | A detail goes in the middle only if BOTH texts tell it. Only Text A tells how many crops farmers grow each year. |
| bb4_s1 | [Set 2] In Text B, Linh carried bundles of rice ___ to the edge of the field. | **stalks or stalk** | Text B, paragraph 3: My job was to carry the bundles of rice stalks to the edge of the field. |
| bb1_s2 | [Set 3] Why is it helpful to read BOTH texts? [Text A gives facts about rice farming, and Text B shows what harvest day is like for a child. / The two texts say exactly the same things. / Text B tells how to plant seedlings. / Text A tells how Linh felt.] | **Text A gives facts about rice farming, and Text B shows what harvest day is like for a child.** | Each text gives different information. Together they give a fuller picture of rice farming in the Mekong Delta. |
| bb2_s2 | [Set 3] Two steps! Step 1: find a detail told only in Text B. Step 2: find a detail told in both texts. Which answer is correct? [Only Text B: ducks eat the fallen grains. Both: the rice is cut with sickles. / Only Text B: big machines cut the rice. Both: ducks eat the fallen grains. / Only Text B: seedlings are planted. Both: Linh wears a hat. / Only Text B: the rice is cut with sickles. Both: neighbors help.] | **Only Text B: ducks eat the fallen grains. Both: the rice is cut with sickles.** | The ducks are only in Text B. Both texts say rice can be cut with sickles. |
| bb3_s2 | [Set 3] Find the mistake! Look at the Text B circle. Which detail should be moved to the Text A circle? [Big machines cut the rice / Linh felt proud / Ducks ate fallen grains] | **Big machines cut the rice** | Only Text A tells about big machines. Linh's feelings and the ducks are only in Text B, so they stay. |
| bb4_s2 | [Set 3] Text A says many farmers in the delta grow two or even ___ rice crops each year. | **three or 3** | Text A, paragraph 4: many farmers in the delta grow two or even three rice crops each year. |

## Pre & Post sheet answer guide

*Many items are open-ended. Grade for genuine understanding and complete sentences, not exact wording.*

## PRE-LESSON WARM-UP

| # | Prompt | Model answer / grading note |
|---|---|---|
| 1 | What does compare mean? | Any reasonable guess. Correct meaning: to tell how two things are the same. (Pre item; grade for effort.) |
| 2 | What is the same about cats and dogs? | They can both be pets. |
| 3 | Clue word for DIFFERENT | but |
| 4 | Apple and banana Venn diagram | Middle: any true shared trait (both are fruits, both grow on plants, both are sweet, both can be eaten as snacks). Outer parts: true differences (apple is round, red or green, crunchy; banana is long, yellow, peeled). Accept reasonable answers. |
| 5 | The sentence under a picture is a ___ (review). | caption |

## POST-LESSON CHALLENGE

| # | Prompt | Model answer / grading note |
|---|---|---|
| 1 | Most important point of Text A | Farmers in the Mekong Delta plant and grow rice in flooded fields (paddies), then harvest it when it is ripe. Accept any complete sentence that covers planting, growing, and harvesting. |
| 2 | Most important point of Text B | Linh helped her family harvest rice, and she felt proud that they worked together. Accept any complete sentence about Linh helping with the harvest. |
| 3 | Venn diagram for Text A and Text B | Text A only: e.g. seeds or seedlings are planted, water keeps weeds away, roots grow in the mud, big machines cut rice, about half of Vietnam's rice, two or three crops a year. Both: rice farming in the Mekong Delta, paddies, canals, ripe rice turns gold, the field is drained before harvest, rice is cut with sickles, grains dry in the sun. Text B only: Linh woke before the sun, cone-shaped palm-leaf hat, carried bundles, neighbors helped, grains knocked loose on a wooden box, Linh raked the grains, ducks ate fallen grains, Linh felt proud. |
| 4 | Which sentence contrasts the texts? | Text A tells about machines, but Text B tells about ducks. |
| 5 | Fix: grandma dad and linh worked in the paddy | Grandma, Dad, and Linh worked in the paddy. (Capital G, D, and L, commas in the list, period at the end; the comma before "and" is optional.) |

## ★ CHALLENGE

| # | Prompt | Model answer / grading note |
|---|---|---|
| 1 | Two compare sentences and two contrast sentences | Compare sentences use both and name a detail in both texts (e.g. Both texts tell that the grains dry in the sun). Contrast sentences use but and name a real difference (e.g. Text A tells about machines, but Linh's family cut the rice with sickles; Text A gives facts, but Text B tells Linh's feelings). |
