KCE PATHWAYS · GRADE 3 · UNIT 2: THE TRAIL AHEAD · WEEK 6 · SCIENCE

Weather and How We Measure It

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

Before the Lesson: What's the Weather?

Write or draw what you already know. Guesses are welcome!

1. What is the weather like right now where you are? Use weather words.

2. Draw a tool you think people use to measure weather. What does it measure?

3. **Predict:** Will tomorrow's weather be the same as today's? Why do you think so?

4. What do you wonder about weather?

KCE PATHWAYS · GRADE 3 · UNIT 2: THE TRAIL AHEAD · WEEK 6 · SCIENCE

Weather and How We Measure It

Name: _____ **Date:** _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

After the Lesson: Weather Watcher

Show what you learned. Use evidence and new words.

1 Write what each tool measures: **thermometer**, **rain gauge**, **wind vane**, **anemometer**.

2 Make a mini weather chart for today. Show the sky, the temperature, and the wind.

3 **Evidence:** In our class chart, Wednesday was 12 degrees cooler than Tuesday. What else changed that day?

4 June Bacon-Bercey forecast the weather on TV. Why do families need good forecasts?

★ **Challenge:** With a parent, make a rain gauge from a clear jar with straight sides and a ruler. Set it in an open spot. Check it after the next rain.

Looking Ahead: Next week we explore the **Sun, seasons, and day and night**. Bring a question: Why does it get dark at night?
