PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

What Do I Already Know?

Answer with what you know right now. Guesses are welcome!

1. Long before 1492, where in the world do you think there were large cities or kingdoms? Name any you know.

2. Prediction: How could people build a big city on an island in a lake? List two problems they would need to solve.

3. Guess: Why would traders in West Africa cross a huge desert with camels? What might they carry?

4. Draw a camel caravan crossing a desert or a city on a lake. Label two parts.

5. Write one question you wonder about the world before 1492.

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

What Did I Learn?

Use evidence from today's lesson. Write in complete sentences.

1. Explain how the Mexica solved one problem of living on an island. Use a lesson word: causeway, chinampa or aqueduct.

2. Why did gold and salt make Ghana, Mali and Songhai rich? Explain in your own words.

3. Compare: How were the Inca roads and the West African caravan routes alike? How were they different?

4. Whose story is missing? Most records name rulers like Mansa Musa. Name one group whose work built these societies but who is rarely named.

★ **Challenge:** Al-Umari's report is secondhand. Write one question you would ask an eyewitness in Cairo in 1324, and explain how the answer would help a historian.

Looking Ahead: Next week: When Worlds Met (1492–1600s). In 1492, Christopher Columbus arrived in the Caribbean, home of the Taíno people. Bring this question: when two worlds meet, who decides how the story is told?
