KCE PATHWAYS · GRADE 3 · UNIT 5: DATA AND DESIGN · WEEK 23 · SCIENCE

# Living in Groups

**Name:** _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

## Pre-Lesson Warm-Up: Why Live Together?

*Write or draw what you already know. Guesses are welcome!*

1. **Review from Week 22:** Name one way to stay safe during a tornado. Then name one design that protects a house from a flood.

2. **Guess:** Why might a little fish swim in a big group instead of alone?

3. **Guess:** What is a family of wolves that lives and hunts together called?

   a pack  a school  a colony

4. Draw a group of animals you have seen, like ants, birds, or fish. Label what the animals are doing together.

5. Write one question you wonder about animals that live in groups.

# Living in Groups

**Name:** _____ **Date:** _____

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

## Post-Lesson Activity: Group Survival Detective

*Build your penguin huddle with a grown-up first. Then show what you learned.*

1. Write the group name for each one: **herd, pack, colony,** or **school**. Wolves: _____ Sardines: _____ Honeybees: _____ Bison: _____

2. **My penguin huddle:** After 30 minutes, how did each cup feel or measure? Middle: _____ Edge: _____ Alone: _____ Which cup stayed warmest, and why?

3. **Find the mistake:** "Every honeybee in a colony lays eggs." Fix it and explain the jobs in a hive.

4. **Two steps:** A wolf pack has 12 wolves. 5 wolves leave to start a new pack. Then 4 pups are born. How many wolves are in the old pack now? Show your work.

★ **Challenge:** Name one **good part** and one **cost** of living in a group. Use an animal from the lesson as your example.

**Looking Ahead:** Next week: **When Environments Change.** Find out what happens to plants and animals when their habitat changes, and how invasive Burmese pythons have changed the Everglades.
