KCE PATHWAYS · GRADE 3 · UNIT 5: DATA AND DESIGN · WEEK 21 · SOCIAL STUDIES

Kids Around the World

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

Pre-Lesson Warm-Up: What Do I Know About Kids Around the World?

Answer before the lesson. It is OK to guess!

1. **Review from Week 19:** About the year 1900, many children worked in mills, mines and fields. Name one way life is different for most kids in America today.

2. Name a country you would like to visit. What do you think kids eat for lunch there?

3. Guess: In which month do you think the school year starts in Japan?

   April | September | December

4. Draw one thing from YOUR day that you would show a pen pal in another country, like your breakfast, your home or a game. Label it.

5. Write one question you would ask a kid who lives in another country.

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Post-Lesson Activity: Comparing Kids' Lives

Answer after the lesson. Use facts you learned as evidence.

1. **Compare:** Pick Fumika, Faraji, Fernanda or Falguni. Write one way their life is **alike** yours and one way it is **different**.

2. **Find the mistake:** A poster says, "Every kid in Kenya lives near lions and never goes to school." Why is this a stereotype? Fix it with a fact about Faraji.

3. **Two steps:** Faraji's school year starts in January. Fernanda's starts in September. How many months later does Fernanda's start? Show your work.

4. Draw one celebration you learned about: Children's Day, Jamhuri Day, Día de Muertos, Diwali or Uttarayan. Label it.

★ **Challenge:** Article 31 of the Convention on the Rights of the Child says every child has a right to rest, play and free time. On the back, write how you use that right, and why it matters for kids everywhere.

Looking Ahead: Next week is **City, Suburb and Country.** You will compare urban, suburban and rural communities, find out why communities grow and change, and read a land-use map.
