KCE PATHWAYS · GRADE 3 · UNIT 3: MARKET DAYS · WEEK 11 · READING

From the Grove to Your Glass — Teacher Lesson Plan & Answer Key

Learning objectives: Students tell the topic of a nonfiction text from its main idea, identify key details that support a main idea (and details that do not), and find the main idea of a paragraph and of a whole passage using the title and first and last sentences.

Duration: 35–45 minutes
Materials: Computer or tablet with the lesson open · pencil · printed Pre & Post sheet

Lesson flow (as it appears on screen)

1. Title & name: student types first and last name so results go to KingCretot Experience; introduce Unit 3: Market Days and the first nonfiction text.
2. Warm-Up Review (12 pts): Unit 2 skills: cause and effect, point of view, motivation, central message. Quick oral recap of the trading post story if needed.
3. Pencil Break (Pre): student completes the Pre part of the paper sheet before any teaching. Do not help with answers; it shows what they already know.
4. Word Wrangler: six vocabulary cards (nonfiction, topic, main idea, key detail, support, grove). Have the student say each word and meaning back.
5. Picture It: the five-step trip diagram and the main idea table (tabletop = main idea, legs = key details). Ask: what happens if a leg is missing or does not belong?
6. Read the booklet: five numbered paragraphs, each with a read-aloud button. Have the student read at least one paragraph aloud; point out that nonfiction gives true facts.
7. Topic vs. Main Idea (12 pts): topic = one or two words; main idea = a whole sentence about the topic. Tip: ask “What is it about?” then “What is the author telling me about it?”
8. Key Details (12 pts): details that hold up the table vs. interesting facts that do not (the state flower fact in paragraph 2). Includes find-the-mistake and which-explanation items.
9. Main Idea of the Whole Booklet (12 pts): find each paragraph’s main idea, then what they share; use the title and first and last sentences as clues. Includes two-step items.
10. Word Work Bonus (XP only): compound words (sunshine, grapefruit).
11. Match-Up (10 pts): five matches, 2 points each on the first try.
12. Fix the Sentence (10 pts): two sentences tied to the booklet; capital letters, end marks, commas in a list. Answers are checked exactly, so remind the student to type the whole sentence.
13. Type-It Corral (12 pts): typed vocabulary and booklet facts; the “Look back” panel is allowed.
14. Speed Arena & Keyboard Corral (XP only): quick review and a typing sentence.
15. Boss Battle (20 pts): main idea, two-step main idea + key detail pairs, find the mistake on the table, and a typed item.
16. Pencil Break (Post): student completes the Post part of the sheet, then presses See My Score.
17. Results: 85+ shows the main idea master congratulations with confetti; below 85 shows encouragement and a fresh question set on the next attempt.

Lesson answer key with reasoning

Every scored item the student sees, in order, across all three rotating question sets. The "why" is the same reasoning shown on screen after a second missed try.

WARM-UP REVIEW: UNIT 2 SKILLS

ID	Question	Answer	Why (explain to student)
w1_s0	[Set 1] In a story, a cause is: [Why something happens / The name of the main character / The last page of the book / A word that rhymes]	**Why something happens**	A cause is WHY something happens. The effect is WHAT happens because of it.
w2_s0	[Set 1] Theo thought the hiker was rude, but that was only one point of ___.	**view**	Theo only saw one point of view. Mia noticed clues that showed another point of view.
w3_s0	[Set 1] Why did Mia stay in the back of the trading post all week? [She was afraid of saying the wrong thing to customers / She did not like Theo / The counter was broken / Grandpa told her to hide]	**She was afraid of saying the wrong thing to customers**	Mia's motivation was fear: she was afraid of saying the wrong thing to a customer.
w4_s0	[Set 1] Which one is a central message, not just an event? [Everyone contributes differently, and that makes a team / A storm hit the trading post / A hiker left without buying anything / Mia stood at the counter]	**Everyone contributes differently, and that makes a team**	A central message is a big lesson. The other choices are events that happened in the story.
w1_s1	[Set 2] Rain soaked the boxes, so the boxes collapsed. What is the effect? [The boxes collapsed / Rain soaked the boxes / The shutter was loose / Mia found puddles]	**The boxes collapsed**	The effect is what happened because of the cause. The boxes collapsed BECAUSE rain soaked them.
w2_s1	[Set 2] The reason a character wants or does something is called ___.	**motivation**	Motivation is the reason a character wants or does something.
w3_s1	[Set 2] Mia saw the hiker's muddy boots and empty water bottle. What did she figure out? [The hiker was tired, not rude / The hiker was a thief / The hiker owned the store / The hiker wanted a job]	**The hiker was tired, not rude**	Mia used clues to infer that the hiker was exhausted, not rude.
w4_s1	[Set 2] Another word for a story's central message is ___.	**theme**	Theme is another word for central message.
w1_s2	[Set 3] In a cause and effect chain, one event can be: [Both an effect and a cause / Only the first event / Never connected to other events / The title of the story]	**Both an effect and a cause**	In a chain, most events play a double role. They are the effect of what came before and the cause of what comes next.
w2_s2	[Set 3] Theo felt hurt. Mia thought the hiker was tired. Comparing their points of view helps you: [Understand the whole picture / Decide who is mean / Skip the ending / Find the setting]	**Understand the whole picture**	Comparing points of view is not about who is right. It helps you understand the whole picture.
w3_s2	[Set 3] Doing something even though you feel scared is called ___.	**courage**	Mia showed courage when she stepped up to the counter even though she was nervous.

ID	Question	Answer	Why (explain to student)
w4_s2	[Set 3] Where do you find a story's central message? [By putting the whole story together / Only in the first sentence / Only in the pictures / In the page numbers]	**By putting the whole story together**	A central message comes from combining ideas from the WHOLE story.

TOPIC VS. MAIN IDEA

ID	Question	Answer	Why (explain to student)
t1a_s0	[Set 1] What is the TOPIC of the booklet? (Remember: a topic is one or two words.) [Oranges / Oranges go through many steps to become juice. / Bees buzz from flower to flower. / Grandpa drove them to Arcadia.]	**Oranges**	The topic is what the text is about in one or two words: oranges. The long sentence is the main idea, not the topic.
t1b_s0	[Set 1] Which sentence is the MAIN IDEA of the whole booklet? [Oranges go through many steps to get from the grove to your glass. / Bees buzz from flower to flower. / Workers climb tall ladders. / Juice is kept cold.]	**Oranges go through many steps to get from the grove to your glass.**	The main idea is the most important point the whole booklet makes. The other choices are small details.
t1c_s0	[Set 1] Which explanation is correct? Theo says the main idea is "oranges." Mia says the main idea is "Oranges go through many steps to get from the grove to your glass." [Mia is right, because a main idea is a whole sentence that tells the most important point about the topic / Theo is right, because a main idea is always one word / Theo is right, because oranges are in every paragraph / Neither is right, because nonfiction has no main idea]	**Mia is right, because a main idea is a whole sentence that tells the most important point about the topic**	"Oranges" is only the topic. Mia gave a whole sentence that tells the most important point about oranges, so hers is the main idea.
t1a_s1	[Set 2] The most important point an author makes about a topic is called the main ___.	**idea**	The main idea is the most important point the author makes about the topic.
t1b_s1	[Set 2] The topic is orange trees. Which sentence is a MAIN IDEA about this topic? [Orange trees need warm weather, sunshine, and water to grow. / Orange trees / Trees and sun / Green]	**Orange trees need warm weather, sunshine, and water to grow.**	A main idea is a whole sentence that says something important about the topic. The other choices are just words.
t1c_s1	[Set 2] Find the mistake! Mia wrote that the main idea of paragraph 3 is "ladders." What went wrong? [Ladders is just one small detail, not the most important point of the paragraph / Paragraph 3 never talks about ladders / A main idea must be a question / Nothing went wrong]	**Ladders is just one small detail, not the most important point of the paragraph**	Paragraph 3 is mostly about oranges being picked by hand. Ladders are one small detail in that paragraph.
t1a_s2	[Set 3] A topic is usually: [One or two words that name what a text is about / A long list of every fact / The last word of the text / A question the reader asks]	**One or two words that name what a text is about**	A topic names what a text is about in one or two words.
t1b_s2	[Set 3] What a text is mostly about, in one or two words, is called the ___.	**topic**	The topic is what a text is mostly about, in one or two words.

ID	Question	Answer	Why (explain to student)
t1c_s2	[Set 3] Which one is a TOPIC, not a main idea? [Orange blossoms / Orange blossoms turn into tiny green oranges. / Machines squeeze the oranges to get the juice out. / Many Florida oranges are picked by hand.]	**Orange blossoms**	Orange blossoms is just two words that name a topic. The other choices are whole sentences that tell an important point.

KEY DETAILS THAT HOLD UP THE MAIN IDEA

ID	Question	Answer	Why (explain to student)
t2a_s0	[Set 1] The tabletop says: At harvest time, oranges are picked by hand. Which detail is a leg that holds it up? [Workers climb tall ladders to reach the fruit. / The juice is heated to kill germs. / The orange blossom is the state flower of Florida. / Trucks take the juice to stores.]	**Workers climb tall ladders to reach the fruit.**	Climbing ladders to reach the fruit tells HOW oranges are picked by hand, so it holds up the main idea of paragraph 3.
t2b_s0	[Set 1] Paragraph 2 is mostly about how oranges grow on trees and ripen slowly. Which detail does NOT support that main idea? [The orange blossom is the state flower of Florida. / Orange trees need warm weather, sunshine, and water. / A blossom can turn into a tiny green orange. / The oranges grow and ripen for many months.]	**The orange blossom is the state flower of Florida.**	The state flower fact is interesting, but it does not tell how oranges grow. The other three details do.
t2c_s0	[Set 1] Find the mistake! Look at this table. The tabletop says: At the packing house, oranges are washed and sorted. Which leg does NOT belong? [Bees buzz from flower to flower. / Oranges are washed with water and soft brushes. / Bruised oranges are taken out.]	**Bees buzz from flower to flower.**	Bees buzzing belongs in paragraph 2, about the grove. It does not tell about washing or sorting oranges.
t2a_s1	[Set 2] Key details are: [Facts that tell more about the main idea and support it / Any fun fact, even if it is off topic / The title and the page numbers / Words that rhyme]	**Facts that tell more about the main idea and support it**	Key details tell more about the main idea and prove it is true, like legs holding up a table.
t2b_s1	[Set 2] The tabletop says: At the juice plant, oranges become juice for stores. Which detail is a key detail for it? [The juice is heated for a short time to keep it safe. / Workers climb tall ladders. / Bees visit the white blossoms. / Orange trees are planted in long rows.]	**The juice is heated for a short time to keep it safe.**	Heating the juice happens at the juice plant, so it supports the main idea of paragraph 5. The others belong to the grove.
t2c_s1	[Set 2] Which explanation is correct? Theo says the state flower fact is a key detail for paragraph 2 because it is in that paragraph. Mia says it is interesting, but it does not tell how oranges grow, so it is not a key detail. [Mia is right, because a key detail must support the main idea / Theo is right, because every sentence in a paragraph is a key detail / Theo is right, because fun facts are always key details / Neither is right, because paragraph 2 has no details]	**Mia is right, because a key detail must support the main idea**	Being in the paragraph is not enough. A key detail must hold up the main idea, and the state flower fact does not tell how oranges grow.

ID	Question	Answer	Why (explain to student)
t2a_s2	[Set 3] A table needs legs to stand up. A main idea needs key ___ to hold it up.	**details or detail**	Key details are the legs that hold up the main idea.
t2b_s2	[Set 3] One leg of this table is missing. The tabletop says: At harvest time, oranges are picked by hand. Which detail fits the empty leg? [They empty the bags into large bins. / Machines squeeze out the juice. / Juice is poured into cartons. / The trees need warm weather.]	**They empty the bags into large bins.**	Emptying the picking bags into bins is part of picking oranges by hand, so it fits paragraph 3.
t2c_s2	[Set 3] Find the mistake! For the tabletop "Oranges grow on trees and ripen slowly," Theo chose the leg "Machines squeeze the oranges." What went wrong? [That detail is about the juice plant, not about how oranges grow / That detail is not in the booklet at all / A table should not have any legs / Nothing went wrong]	**That detail is about the juice plant, not about how oranges grow**	Squeezing oranges happens at the juice plant in paragraph 5. It does not tell how oranges grow on trees.

MAIN IDEA OF THE WHOLE BOOKLET

ID	Question	Answer	Why (explain to student)
t3a_s0	[Set 1] Where are the best places to look for clues about the main idea of a whole booklet? [The title and the first and last sentences / Only the page numbers / The longest word / Only the middle of paragraph 3]	**The title and the first and last sentences**	Authors often state the main idea in the title, at the beginning, and again at the end.
t3b_s0	[Set 1] Two steps! Step 1: read the title, From the Grove to Your Glass. Step 2: read the last sentence, remember the long trip it took from the grove to your glass. What main idea do they share? [Oranges take a long trip from the grove to your glass. / Bees like orange blossoms. / Ladders are tall. / Juice should be kept cold.]	**Oranges take a long trip from the grove to your glass.**	Both the title and the last sentence talk about the trip from the grove to your glass. That is the main idea of the whole booklet.
t3c_s0	[Set 1] Paragraphs 2 to 5 each tell one stop on the trip: grow, pick, wash and sort, squeeze and sell. Put together, what do they support? [The main idea of the whole booklet / A brand new topic about bees / A story about a dragon / Nothing, they do not connect]	**The main idea of the whole booklet**	Each paragraph tells one step, and together the steps hold up the main idea of the whole booklet.
t3a_s1	[Set 2] The title From the Grove to Your Glass gives a clue that the booklet is about: [The trip oranges take to become juice / How to wash dishes / How glass is made / A trip to the beach]	**The trip oranges take to become juice**	The title names the start (the grove) and the end (your glass) of the oranges' trip.

ID	Question	Answer	Why (explain to student)
t3b_s1	[Set 2] Which explanation is correct? Theo says the main idea of the whole booklet is "Workers pick oranges by hand" because that is his favorite part. Mia says it is "Oranges go through many steps to become juice" because every paragraph tells one of those steps. [Mia is right, because her main idea covers every paragraph / Theo is right, because your favorite part is always the main idea / Theo is right, because picking is in paragraph 3 / Neither is right]	**Mia is right, because her main idea covers every paragraph**	Picking by hand is only the main idea of paragraph 3. Mia's idea covers all the paragraphs, so it is the main idea of the whole booklet.
t3c_s1	[Set 2] In the booklet, the main idea of a paragraph is often found in its: [First sentence or last sentence / Longest word / Page number / Middle letter]	**First sentence or last sentence**	Authors often put the main idea in the first sentence of a paragraph, and sometimes in the last sentence.
t3a_s2	[Set 3] Two steps! First you find the main idea of each paragraph. What do you do next to find the main idea of the whole booklet? [Look for what all the paragraph main ideas have in common / Pick the shortest paragraph / Choose your favorite fact / Count the sentences]	**Look for what all the paragraph main ideas have in common**	The main idea of the whole text is what all the paragraph main ideas have in common.
t3b_s2	[Set 3] Which would be the BEST new title for the booklet? [How Oranges Become Juice / Bees in Spring / Tall Ladders / Cold Cartons]	**How Oranges Become Juice**	A good title fits the main idea of the whole booklet. The other titles fit only one small detail.
t3c_s2	[Set 3] Find the mistake! Mia said, "The last sentence of the booklet is about something new, so it cannot help me find the main idea." What is wrong? [The last sentence repeats the main idea, so it is a helpful clue / The booklet has no last sentence / Last sentences are always questions / Nothing is wrong]	**The last sentence repeats the main idea, so it is a helpful clue**	The last sentence reminds readers of the long trip from the grove to your glass. It repeats the main idea.
