KCE PATHWAYS · GRADE 3 · UNIT 5: DATA AND DESIGN · WEEK 24 · MATH

Barbecue Festival in Kansas City

Name: _____ **Date:** _____

PRE-LESSON WARM-UP · DO THIS BEFORE YOUR COMPUTER LESSON

Pre-Lesson Warm-Up: Firing Up the Smoker

Try your best on each problem. Show your work! It is okay if some of it feels new.

1. Review: A napkin has 4 equal sides and 4 right angles. Write its most exact name. Then write one more shape name that also fits it.

2. Mr. Hargrove has 40 ribs. He sells 12 ribs, and then he sells 9 more. How many ribs are left?

3. Gemma puts 5 corn muffins in each of 4 baskets. How many muffins is that in all?

4. Round 68 to the nearest ten.

   60 70 100

5. In the equation 15 + n = 22, what number does the letter n stand for?

POST-LESSON CHALLENGE · DO THIS AFTER YOUR COMPUTER LESSON

Post-Lesson Activity: The Dinner Rush

1. Hattie has 400 plates. She uses 165 at lunch and 128 at dinner. Write an equation with a letter for the plates left, then solve it.

2. Two steps: Hector shares 54 burnt ends equally on 6 plates, then eats 3 from one plate. How many are left on that plate?

3. Find the mistake: Gemma says 8 × 5 − 4 = 8, because 5 − 4 = 1 and 8 × 1 = 8. What went wrong? What is the correct answer?

4. Estimate 326 + 471 by rounding to the nearest hundred. Then find the exact sum. Is it reasonable? Why?

★ **Challenge:** Grady has 7 packs of 8 cups and uses 39. Write and solve an equation for the cups left.

Looking Ahead: Next week is the Unit 5 Checkpoint: graphs, line plots, shapes, and two-step problems from Weeks 21 to 24.
