KCE PATHWAYS · GRADE 3 · UNIT 6: BUILDING TOGETHER · WEEK 28 · READING

The Buxton Beacon Kids — Teacher Lesson Plan & Answer Key

Learning objectives: Students recognize a series (the same main characters in new adventures), compare the plots (problem, events and solution) and the settings (where and when) of two books with the same characters, explain how a setting shapes the plot, compare how characters act and change using evidence, and use comparing words such as both, also, but and different.

Duration: 35–45 minutes
Materials: Computer or tablet with the lesson open · pencil · printed Pre & Post sheet

Lesson flow (as it appears on screen)

1. Title and name: the student types first and last name so results go to KingCretot Experience. Read the Pathway Points rules together: 2 tries per question, points only for a correct first try, and the answer and reason appear after a second miss. Introduce a summer reading club on Hatteras Island in the Outer Banks of North Carolina, where Gavin and Genevieve read The Buxton Beacon Kids, a mini series by Georgina Gale about Gael, his little sister Geneva and Grandpa Gerardo.
2. Warm-Up, Part 1: Week 27 Review (6 pts, 3 each): opinion pieces and linking words in a short piece (Garnet's, Gabe's or Gareth's, a different piece in each set).
3. Warm-Up, Part 2 (6 pts, 3 each): two more opinion items with the same piece, including a conclusion, a linking word or a find-the-mistake item.
4. Pencil Break (Pre): the student opens or prints the Pre/Post sheet (grade3/prepost/KCE_Reading_PrePost_G3W28.pdf) and completes Page 1 (Pre) before any teaching. Do not help with answers; it shows what they already know.
5. Word Wrangler: 6 vocabulary cards (series, compare, volunteer, landing, hatchling, patient), each with a sentence from the reading.
6. Picture It: Two Books, One Diagram. A Venn diagram holds Book 1 only (daytime, the lighthouse, Geneva is scared, Gael rushes), Book 2 only (nighttime, the beach, turtle hatchlings, Gael waits) and both (Gael, Geneva, Grandpa, Hatteras Island, helping each other). Words for same: both, also, alike; for different: but, however.
7. Read: The Buxton Beacon Kids (Book 1, The Long Climb, at the Cape Hatteras Lighthouse; Book 2, The Night of the Turtles, on the beach near Buxton). As you read, notice what stays the same and what changes: the problem, the setting, and how Gael and Geneva act.
8. Same Characters, New Adventure, Part 1 (6 pts, 3 each): what makes a series, which characters and place stay the same, and what is new in Book 2 (a loggerhead sea turtle nest).
9. Same Characters, New Adventure, Part 2 (3 pts): a new problem does not stop a book from being in the series, Grandpa's new job (sea turtle volunteer), and characters can grow and change.
10. Compare the Plots, Part 1 (6 pts, 3 each): the problem and solution in each book (Geneva is scared of the 257 steps; a flashlight could confuse the hatchlings). Both problems are solved when the kids help each other.
11. Compare the Plots, Part 2 (3 pts): the comparing words both and but, and a find-the-mistake item (only Book 1 is about Geneva being scared).

12. Compare the Settings, Part 1 (6 pts, 3 each): Book 1 is a hot, sunny summer morning at the lighthouse; Book 2 is a dark night late in the summer on the beach. Ask: could this story happen in another setting?
13. Compare the Settings, Part 2 (3 pts): how the tall tower causes the Book 1 problem, which book needs the dark beach, and same island but a different place and time.
14. How the Characters Act, Part 1 (6 pts, 3 each): evidence that Gael is impatient in Book 1 (“Hurry up, slowpoke!”) and patient in Book 2, Geneva scared and then excited, and the shared message: be patient, and help each other.
15. How the Characters Act, Part 2 (3 pts): the word evidence, and find-the-mistake or which-explanation items about how Gael and Geneva act differently in each book.
16. Word Work Bonus, Part 1: Comparing Words: -er and -est (XP only, not scored).
17. Word Work Bonus, Part 2: Comparing Words: -er and -est (XP only, not scored).
18. Match-Up Round (10 pts, 2 per first-try match): Set 1 matches story words to meanings, Set 2 matches book details to what they are, Set 3 matches comparing words to their jobs.
19. Fix the Sentence (10 pts, 5 each): each item names the one kind of fix (capital letters for names, a place, a town and a state, the comma before but, or one verb). The whole sentence is checked exactly; curly quotes and extra spaces are forgiven. The corrected sentence appears after the 2nd miss.
20. Type-It Corral, Part 1 (8 pts, 4 each): typed vocabulary and text-detail answers; capital letters and a final period do not matter, but spelling does. The “Look back” panel is allowed.
21. Type-It Corral, Part 2 (4 pts): one more typed answer, a two-step word problem, same checking rules.
22. Speed Arena, Part 1 (XP only, not scored).
23. Speed Arena, Part 2 and Keyboard Corral (XP only, not scored).
24. Boss Battle, Part 1: Beacon Showdown (10 pts, 5 each): the problem in each book, how Gael acts in the two books, the Book 1 event that helps Gael change, and typed details (257 steps, the ocean) and a two-step problem.
25. Boss Battle, Part 2: Beacon Showdown (10 pts, 5 each): find-the-mistake items (Grandpa never yells; the same characters do not mean the same setting), why the dark setting matters in Book 2, and typed words (together, sea, setting).
26. Pencil Break (Post): the student turns to Page 2 (Post) of the same sheet (grade3/prepost/KCE_Reading_PrePost_G3W28.pdf) and completes it, plus the ★ Challenge if time allows, before seeing the score. The sheet buttons let the student open or print it again.
27. Results (Series Detective!): the score out of 100 is sent to KingCretot Experience. 85 or higher shows “Story Comparing Master!” with the congratulations message “Story comparing master!” and a big confetti burst; below 85 shows “Great Effort Today!” with encouragement (“Every great reader climbs one step at a time. You can too!”), and the next attempt brings a fresh question set (sets rotate 1, 2, 3). Both messages remind the student to finish the Post-Lesson Challenge sheet.

Lesson answer key with reasoning

Every scored item the student sees, in order, across all three rotating question sets. Each item allows 2 tries and earns Pathway Points only on a correct first try. The "why" is the same reasoning shown on screen after a second missed try.

WARM-UP: WEEK 27 REVIEW (3 POINTS EACH)

ID	Question	Answer	Why (explain to student)
w1_s0	Set 1: *Every Kid Should Learn to Swim · an opinion piece by Garnet, age 9 I think every kid in our beach town should learn to swim. First, swimming keeps kids safe. For example, the ocean here can have strong currents called rip currents. Also, swimming is great exercise because it works your arms, legs, and heart. Therefore, our town should offer free swim lessons every summer.* Which sentence is Garnet's OPINION? [I think every kid in our beach town should learn to swim. / The ocean here can have strong currents called rip currents. / Swimming works your arms, legs, and heart. / First, swimming keeps kids safe.]	**I think every kid in our beach town should learn to swim.**	The opinion tells what Garnet thinks. I think is a clue. The other sentences are a reason and examples that support it.
w2_s0	Set 1: Type your answer: Garnet writes two linking words right before her example about rip currents. Type both words.	**for example**	For example comes right before a fact or detail that proves a reason.
w3_s0	Set 1: Type your answer: Type the linking word Garnet uses to start her conclusion.	**therefore**	Her last sentence begins with Therefore, which tells the reader the conclusion is coming.
w4_s0	Set 1: Find the mistake! Gavin says, "Swimming is great exercise is Garnet's conclusion." What went wrong? [That is one of her reasons. Her conclusion begins with Therefore and says her opinion again. / Garnet has no reasons. / Swimming is not exercise. / Nothing went wrong.]	**That is one of her reasons. Her conclusion begins with Therefore and says her opinion again.**	Remember from Week 27: Also adds one more reason, and Therefore starts the conclusion.
w1_s1	Set 2: *Our Library Needs a Beach Book Cart · an opinion piece by Gabe, age 8 I think our library should bring a book cart to the beach on Saturdays. Many families spend all day at the beach, so they cannot get to the library. For example, my neighbors go to the beach every Saturday in the summer. Also, reading in the shade is a fun way to rest after swimming. Therefore, a beach book cart would help more kids read.* Type your answer: Gabe thinks the library should bring a book ___ to the beach on Saturdays.	**cart**	Gabe's opinion is that the library should bring a book cart to the beach.

ID	Question	Answer	Why (explain to student)
w2_s1	Set 2: Which sentence is Gabe's EXAMPLE? [For example, my neighbors go to the beach every Saturday in the summer. / I think our library should bring a book cart to the beach on Saturdays. / Therefore, a beach book cart would help more kids read. / Our Library Needs a Beach Book Cart]	**For example, my neighbors go to the beach every Saturday in the summer.**	The example comes right after For example. It proves his reason that families spend all day at the beach.
w3_s1	Set 2: Which linking word does Gabe use to ADD one more reason? [Also / Therefore / For example / First]	**Also**	Also adds one more idea: reading in the shade is a fun way to rest.
w4_s1	Set 2: Which explanation is correct? Genevieve says, "Gabe's piece is well supported, because it has an opinion, reasons, an example, linking words, and a conclusion." Gavin says, "Gabe's piece is weak, because it uses linking words." [Genevieve is right, because Gabe's piece has all the parts of a strong opinion piece / Gavin is right, because linking words make writing weak / Gavin is right, because opinion pieces need no reasons / Neither is right, because Gabe has no opinion]	**Genevieve is right, because Gabe's piece has all the parts of a strong opinion piece**	Linking words make writing stronger. Gabe's piece has every part you learned in Week 27.
w1_s2	Set 3: *Kites · an opinion piece by Gareth, age 9 Kites are the best. Kite flying is awesome. I like kites a lot. My sister lost her shoe yesterday. Everyone should fly a kite.* Which sentence should Gareth CUT, because it is off topic? [My sister lost her shoe yesterday. / Kites are the best. / Everyone should fly a kite. / I like kites a lot.]	**My sister lost her shoe yesterday.**	A lost shoe has nothing to do with kites. Off-topic sentences should be cut.
w2_s2	Set 3: Type your answer: "Kite flying is awesome" tells a ___, not a reason. (Hint: it is how Gareth feels.)	**feeling** (also accepted: a feeling)	It only tells how Gareth feels. A reason tells WHY, and it can be proven with an example.
w3_s2	Set 3: Type your answer: Type the linking word that comes before a reason: "Kite flying is fun ___ the beach wind is strong."	**because**	Because comes before a reason. The strong wind is WHY kite flying is fun at the beach.
w4_s2	Set 3: Which sentence would make the best CONCLUSION for Gareth's piece? [Therefore, every kid should try flying a kite on a windy beach day. / For example, kites are fun. / My sister lost her shoe. / Also, I like kites.]	**Therefore, every kid should try flying a kite on a windy beach day.**	A conclusion says the opinion again, and Therefore tells the reader it is coming.

b3_s1	Set 2: Which explanation is correct? Genevieve says, "The dark setting of Book 2 matters, because hatchlings come out at night and follow the moonlight on the water." Gavin says, "Book 2 would be the same story on a sunny afternoon." [Genevieve is right, because the darkness and the moonlight shape what happens / Gavin is right, because the setting never matters / Gavin is right, because turtles hatch at lunchtime / Neither is right, because Book 2 has no setting]	**Genevieve is right, because the darkness and the moonlight shape what happens**	In a bright afternoon setting, there would be no moonlight path and no flashlight problem.

Book 1 is at the lighthouse in the day, and Book 2 is on the beach at night. / The books have different characters. / Neither book has a setting. / Nothing went wrong.]	**The same characters do not mean the same setting.
